Subject: Ld 1452

My name is Pamela S. Creamer , I am a member of the Town of Woolwich Shellfish Conservation Committee. I also would like to state that I do not make a living from our beloved coast of Maine .

I am in 100% support of Ld 1452 : An Act to allow municipalities with shellfish conservation ordinance to request permission to prohibit marine worming .

I believe we need CONSERVATION, which is the protection and preservation of our very fragile marine habitats. I also support the checks and balances that are in place by only allowing up to 10% of a town flats to be placed into protective conservation. This gives plenty of room for the hard working men and women in the worming and clamming industries to still make a living and have conservation at work to try to rebalance the ecosystems that are vanishing before our eyes.

Thank you
Pamela S. Creamer
