

My name is Harrison Kemp.

I am a veteran, Chairman for the Libertarian of Maine, and I had a hand in getting this legislation in front of you today. I want to thank Senator Brakey for sponsoring this bill, and committee members Representative Andrews, Representative Boyer, and Representative Supica for co-sponsoring. I also want to thank Representatives, Faulkingham, Roeder, and White for co-sponsoring this important piece of legislation and making this such a bipartisan effort.

I urge you to vote in favor of LD 769. The latest breakdown of voter registrations from February 2023 shows there are 369,124 "Unenrolled" voters in our state. That's over 26% of our state's population. When that many people don't feel as though the current choices represent them, as elected representatives it is your duty to make the process easier and more achievable. A more achievable pathway to earn permanent party status means more choices, more choices make it more likely we get the government we want rather than having to choose between the lesser of two evils. I urge you to strengthen our representative process by voting in favor in LD 769.

Thank you,

Harrison Kemp

The undersigned have stated their support for the following statement via electronic petition:

I want to strengthen our state's voting rights by reducing the number of required voters to earn party status to 5,000 registered voters.
