Major Initiatives

The Supplemental Budget as amended proposes additional savings initiatives totaling \$42.0 million, primarily from the appropriation balances, reserve funds and debt service savings to support \$160.3 million of spending initiatives, committing all but \$0.1 million of the FY11 available budgeted balance. Provided below is a brief summary of the major initiatives.

- > Net increase in hospital payments of \$247.4 million (all funding sources);
- > Offsets General Fund MaineCare shortfalls from program growth and matching rate assumptions totaling \$71.8 million;
- > Conforms to recent federal income tax changes decreasing General Fund revenue by \$4.5 million in FY11;
- > Increases by \$2.9 million the fixed dollar reduction to revenue sharing, \$1.0 million less than the amount of the budgeted increase in revenue sharing transfers for FY11 in the December 2010 revenue forecast; and
- > Uses \$7.0 million of FY10 year-end surplus intended for the Maine Budget Stabilization Fund (set aside for Railroad Assistance in error), but increases the FY11 budgeted transfer to the stabilization fund by \$0.7 million.

Notes:

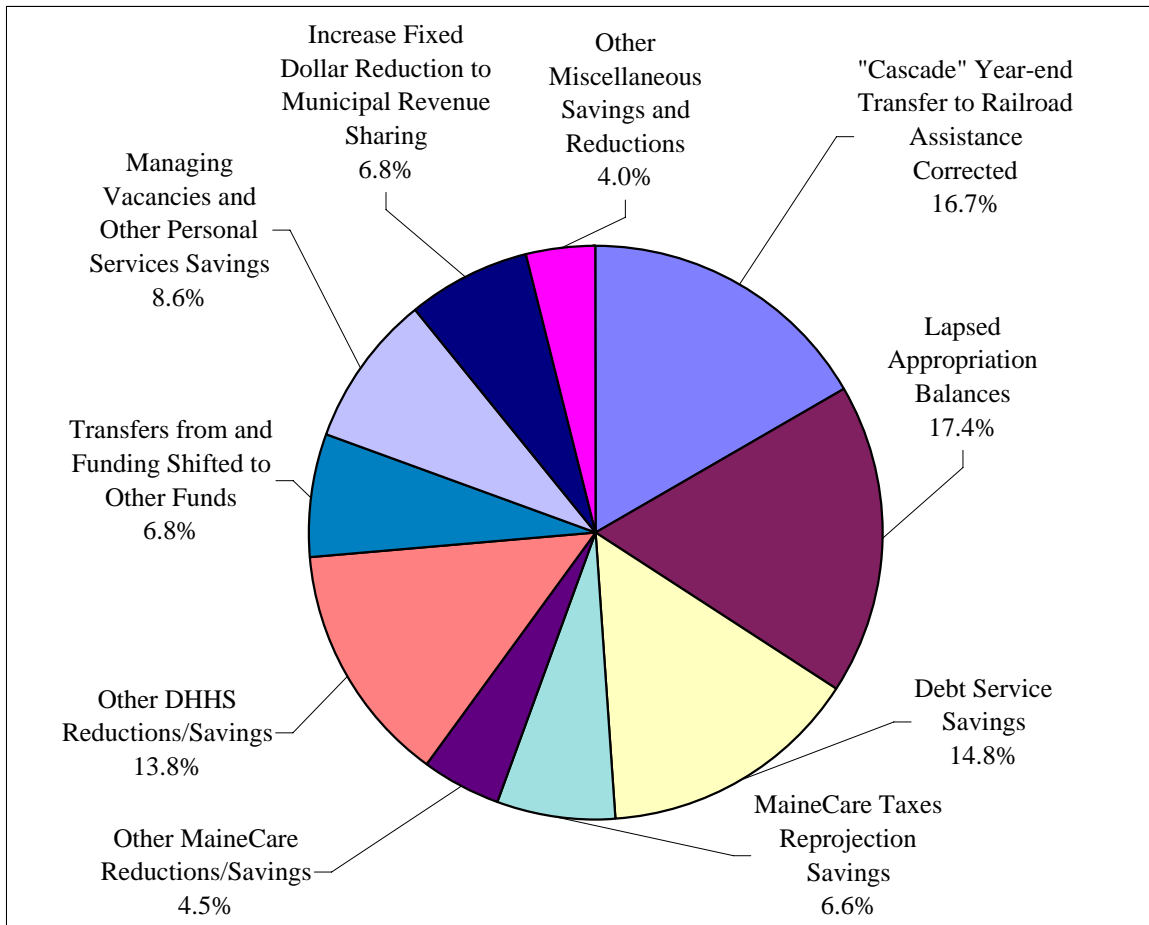

¹ Reflects budgeted ending balance for FY11 including FY10 closing transactions, all legislative changes through the 124th Legislature and the December 2010 Revenue Forecast.

² This presentation presents a different look at the budget proposals from the traditional presentation of Budgeted Resources (net revenue changes and net transfers) less Appropriations. "Savings" initiatives include those items that increase resources: deappropriations; revenue increases; transfers from other funds; and other positive adjustments to balances. "Spending" initiatives include all those items that decrease resources: appropriations; revenue decreases; transfers to other funds; and other negative adjustments to fund balance.

That part also included a \$7 million General Fund appropriation for this purpose. The intent was to designate the \$7 million in the FY10 Year-end "Cascade" to the Maine Budget Stabilization Fund, after the draft bill was changed to provide an appropriation, however, the change was not included.
