This report provides data and information on MaineHousing’s use of dedicated revenue funds derived from the Real Estate Transfer Tax to meet the purpose of the Housing Opportunities for Maine (HOME) Fund. Maine’s HOME Fund was created in 1982 to provide MaineHousing with a flexible financial resource to address the state’s affordable housing needs. No moneys from the HOME Fund are used by MaineHousing for salaries or the administrative costs of the agency. Title 36, Section 4641-N of the Maine Revised Statutes requires MaineHousing to submit a report every two years to the joint standing committee of the Legislature having jurisdiction over housing.

The key characteristic of the fund is its flexibility. MaineHousing can use the revenues for a wide variety of housing initiatives that might not otherwise have adequate funding and to meet emergency housing needs such as the housing problems that arose as result of the drought Maine experienced in 2017.

MaineHousing has targeted HOME Funds toward the priorities it established in the agency’s 2018 – 2023 Strategic Plan.

2018 – 2023 Strategic Priorities

- ◆ **Expand Affordable Housing Opportunities**
- ◆ **Improve and Preserve the Quality of Housing**
- ◆ **Help People Attain Housing Stability**
- ◆ **Provide Leadership in the Housing Field**
- ◆ **Continue to be Viable and Capable of Meeting the State’s Housing Needs**

Upgrading properties to support aging in place, accessibility, and energy efficiency
Maine has an older, less energy efficient, and too often unsafe housing stock. Many Maine homes have significant repair needs and low income residents are not able to afford these costs. MaineHousing has implemented several programs, funded through the HOME Fund and offered to low income homeowners by Community Action Agencies and local Public Housing Authorities to improve and preserve the quality of housing in Maine.
