

Dear Lynn Caswell,

I think it's time to change the laws governing discontinued roads. The people on discontinued roads are taxed just as much as people living on town maintained roads. No effort is made to protect these roads from unlimited abuse as they would for town maintained roads. The town doesn't even have a minimal standard keep the road safe or free of snow. I think the town should have a standard obligation, even if it's a small one to serve the taxpayers on these roads for snow removal, emergency services , mail and school buses.

Best Regards
Eric Englehardt
