

## **Overview of Paid Family & Medical Leave Laws in the United States**

Nine U.S. states and the District of Columbia have paid family and medical leave laws on the books. This document provides an overview of these laws.

*Hawaii* also has a temporary disability insurance (TDI) program, which provides benefits to most workers for up to 26 weeks (save for a 1-week waiting period) for any period of serious off-thejob illness or injury. To be eligible for benefits, workers must have been employed for at least 14 weeks, during each of which the worker worked at least 20 hours and earned at least \$400 in wages, during the 52 weeks immediately prior to the start of disability. This can combine income from more than one employer. Under the program, a worker receives 58% of a worker's average weekly wage up to a cap of about 70% of the statewide average weekly wage. Hawaii does not provide paid family leave.<sup>62</sup>

<sup>11</sup> In 2020, New Jersey's law was amended to specify that TDI and FLI can be used in the event of a state of emergency declared by the Governor (or when the Commissioner of Health or other public health authority has indicated that one is needed) when a worker or a family member has an illness caused by an epidemic of a communicable disease, has a known or suspected exposure to the communicable disease, or is taking efforts to prevent spread of the communicable disease, the worker or family member requires in-home care or treatment due to the issuance of a determination by a healthcare provider or a public health authority that the worker's or family member's presence in the communicable disease.

<sup>12</sup> Under an emergency law, special TDI and/or paid family leave benefits may be available to certain workers when they or their minor child is subject to a mandatory or precautionary order of quarantine or isolation due to COVID-19. For more information, consult our fact sheet <u>https://www.abetterbalance.org/resources/fact-sheet-new-york-states-paid-sick-leave-legislation/</u>.

<sup>13</sup> The statute explicitly includes miscarriage and stillbirth as serious health conditions. In addition, the law provides specific protections for pre-natal medical care.

<sup>14</sup> Connecticut's law also specifies that leave can be taken to be an organ or bone marrow donor. This purpose may also be covered under other paid family and medical leave laws.

<sup>15</sup> California, New Jersey, and Rhode Island also provide some coverage for previously covered workers who have a qualifying need for family or medical leave while they are unemployed, while New York and Hawaii also provide some coverage for previously covered workers who have a qualifying need related to the worker's own health. Details vary by state. States that aren't currently implementing their programs will also likely provide some coverage for previously covered workers during unemployment, though final regulations will be needed to specify details.

<sup>16</sup> For a list of exceptions, visit <u>http://www.wcb.ny.gov/content/main/coverage-requirements-db/db-coverage-required.jsp</u>.

<sup>17</sup> Note that no state law covers federal employees.

<sup>18</sup> If a worker was unemployed and actively seeking work for at least 60 days of a quarter or quarters during the base period, that quarter or quarters is excluded from the base period and an equal number of quarters from the period immediately prior to the base period are substituted.

<sup>19</sup> Employees who are regularly in the employment of a single employer on a work schedule that is less than the employer's normal work week become eligible for disability leave benefits on the 25<sup>th</sup> day of such employment. <sup>20</sup> From August 1, 2021 through June 30, 2023, employees whose leave begins in 2021 through March 31, 2022 and who do not meet the hours worked requirement but are otherwise eligible for paid family and medical leave may be eligible for pandemic leave assistance employee grants; individuals who do not meet the hours worked requirement because of an employment separation due to misconduct or a voluntary separation (unrelated to COVID-19) are not eligible.

<sup>21</sup> Workers with multiple jobs may choose to take leave from one job or multiple jobs. However, if a worker chooses to continue working at an additional job or jobs during leave, wages earned from the additional job or jobs will not be considered when calculating the worker's weekly benefit.

<sup>22</sup> This list covers family members for whom a worker can take leave to care for when they are seriously ill. Paid family leave can also be used to address certain needs arising from the active duty military service of a worker's spouse, domestic partner, child, or parent.

Page 11 of 14

<sup>&</sup>lt;sup>1</sup> R.I. Gen. Laws § 28-39-1 *et seq.* 

<sup>&</sup>lt;sup>2</sup> Cal. Unemp. Ins. Code § 2601 et seq. San Francisco has enacted a municipal law that grants additional benefits for parental leave for many workers.

<sup>&</sup>lt;sup>3</sup> N.J. Stat. Ann. § 43:21-25 et seq.

<sup>&</sup>lt;sup>4</sup> N.Y. Workers' Comp. Law § 200 et seq. For more information on New York's paid family leave law, visit <u>FamilyLeaveWorks.org</u>.

<sup>23</sup> This list covers family members a worker can take leave to care for when they are seriously ill. Paid family leave can also be used to address certain needs arising from the active duty military service of a worker's spouse, domestic partner, child, or parent.

<sup>24</sup> The definition of domestic partner includes any person who is at least 18 years old and "is dependent upon the employee for support as shown by either unilateral dependence or mutual interdependence, as evidenced by a nexus of factors including, but not limited to, common ownership of real or personal property, common householding, children in common, signs of intent to marry, shared budgeting, and the length of the personal relationship with the employee . . . ."

<sup>25</sup> The definition of domestic partner includes any person who is at least 18 years old and "is dependent upon the covered individual for support as shown by either unilateral dependence or mutual interdependence that is evidenced by a nexus of factors including, but not limited to: (A) common ownership of real or personal property; (B) common householding; (C) children in common; (D) signs of intent to marry; (E) shared budgeting; and (F) the length of the personal relationship with the covered individual . . . ."

<sup>26</sup> This list covers family members a worker can take leave to care for when they are seriously ill. Paid family leave can also be used to address certain needs arising from the active duty military service of a worker's spouse, child, or parent. Note that safe time can only be used when the worker, not a family member, is a victim of domestic violence.

<sup>27</sup> Workers can also take leave to care for the spouse or registered domestic partner of the worker's parent, sibling, grandparent, and grandchild. This list covers family members a worker can take leave to care for when they are seriously ill. Paid leave under the law can also be used as safe leave to address certain medical and non-medical needs arising out of the worker or the worker's minor child or dependent being a victim of domestic violence, harassment, sexual assault, or stalking.

<sup>28</sup> The law's definition of domestic partner does not require registration. The definition of domestic partner includes any person who is at least 18 years old and "(a) who is of the same gender as the employee; (b) With whom the employee has shared an exclusive, committed relationship for at least one year with the intent for the relationship to last indefinitely; (c) Who is not related to the employee by blood to a degree that would prohibit marriage pursuant to section 14-2-110, C.R.S.; and (d) Who is not married to another person."

<sup>29</sup> The state sets the premium based on a formula set by statute and not to exceed 1.5% of wages (with premiums not applying to wages above an amount based on a formula set by statute).

<sup>30</sup> These percentages are based on participation in the state plan. If an employer chooses a private plan, employees can only be required to contribute as much as they would have contributed to the state plan; these employees can only be required to contribute if a majority of employees agree to the private plan before it goes into effect. See <a href="https://myleavebenefits.nj.gov/labor/myleavebenefits/employer/index.shtml?open=PrivatePlan">https://myleavebenefits.nj.gov/labor/myleavebenefits.nj.gov/labor/myleavebenefits.nj.gov/labor/myleavebenefits.nj.gov/labor/myleavebenefits/employer/index.shtml?open=PrivatePlan</a>.

<sup>31</sup> A self-employed individual who elects coverage is required to pay the full cost of TDI and PFL premiums. An employer not covered by the law who elects coverage is required to pay the portion of the premium not covered by wages withheld from workers.

<sup>32</sup> A self-employed individual who elects coverage is only required to pay the portion of the premium required from workers.

<sup>33</sup> Employers with 50-150 employees who must pay all of the premiums or employers with fewer than 50 employees who choose to cover the employee portion of the premium may apply to receive certain grants from the state. While funds are available and until June 30, 2023, employers with 150 or fewer employees who pay all premiums and have an employee who has received or will receive a pandemic leave assistance employee grant may apply for pandemic leave assistance grants.

<sup>34</sup> The initial total premium for both family and medical leave will be set at 0.4% of employees' wages, one third of which shall be associated with family leave and two thirds of which shall be associated with medical leave. The state will set the premium in subsequent years based on a formula set by statute. In addition, the state will set the maximum wages subject to premium contributions based on the maximum wages subject to social security taxation. Employers may choose to cover all or part of employees' share of the premium for family and/or medical leave.

<sup>35</sup> A self-employed individual who elects coverage is required to pay the full cost of family and medical leave premiums.

<sup>36</sup> For purposes of determining the number of employees, self-employed people who are part of the employer's workforce are considered employees if self-employed people make up more than fifty percent of the employer's workforce.

<sup>37</sup> The state will set the premium not to exceed 0.5% of wages (with premiums not applying to wages above the Social Security contribution base).

<sup>38</sup> Employers with less than 25 employees may apply to receive certain grants if they elect to pay the employer contribution.

<sup>39</sup> A self-employed individual or an employee of a local government who elects coverage is only required to pay 50% of the premium.

<sup>40</sup> For the calendar year of 2025 and each calendar year thereafter, the state will set the premium based on a formula set by statute and not to exceed 1.2% of wages (with premiums not applying to wages above the Social Security contribution base).

<sup>41</sup> In addition, workers may also be entitled to a dependency allowance for minor children or adult children who are incapacitated due to physical or mental illness.

<sup>42</sup> Very low-wage workers receive a fixed benefit amount set by statute, which may result in higher wage replacement rates.

<sup>43</sup> Workers with less than a year of total covered employment will receive a smaller benefit, pro-rated based on the numbers of weeks the worker has worked in covered employment.

Page 12 of 14

<sup>44</sup> While technically there is no time limit on receiving benefits, workers cannot receive benefits worth more than 30 times their weekly benefit rate in a year, in effect limiting workers to 30 weeks per year.

<sup>45</sup> While technically there is no time limit on receiving benefits, workers cannot receive benefits worth more than 52 times their weekly benefit rate for any continuous period of disability, in effect limiting workers to 52 weeks per continuous period of disability.

<sup>46</sup> In addition, no worker can receive benefits worth more than 26 times their weekly benefit amount in a year.

<sup>47</sup> Between October 1, 2021 and September 30, 2022, workers may be able to receive benefits for up to 2 weeks for leave in relation to pre-natal medical care and for a combined total of up to 6 weeks for medical leave and leave in relation to pre-natal medical care.

<sup>48</sup> Starting October 1, 2022, the number of weeks of benefits available will depend on the amount of money available in the paid leave fund. As a baseline, the program will provide benefits for up to 2 weeks for workers' own health, up to 6 weeks to care for a seriously ill relative, and up to 8 weeks to bond with a new child, up to a combined total of 8 weeks for workers with more than one need for leave. If funds allow, the maximum weeks of benefits will increase in increments above this baseline according to a set formula, up to 12 weeks for each purpose and a combined total of 12 weeks for workers with more than one need for leave (or up to a combined total of 14 weeks of benefits for workers with certain pregnancy-related health needs who need leave for more than one purpose).

<sup>49</sup> Technically, workers are entitled to medical leave benefits for up to 12 times their typical workweek hours. As noted above, medical leave may be extended by an additional 2 weeks (2 times a worker's typical workweek hours) if the worker experiences a serious health condition with a pregnancy that results in incapacity.

<sup>50</sup> Technically, workers are entitled to family leave benefits for up to 12 times their typical workweek hours.

<sup>51</sup> Technically, workers are entitled to up to a cumulative 16 times the worker's typical workweek hours of family and medical leave in a 52-week period or up to a cumulative 18 times the worker's typical workweek hours of family and medical leave in a 52-week period if the worker experiences a serious health condition with a pregnancy that results in incapacity.

<sup>52</sup> The 7-day unpaid waiting period will not apply when a worker uses TDI in the event of a state of emergency declared by the Governor (or when the Commissioner of Health or other public health authority has indicated that one is needed) because the worker has an illness caused by an epidemic of a communicable disease, has a known or suspected exposure to the communicable disease, or is taking efforts to prevent spread of the communicable disease, the worker requires in-home care or treatment due to the issuance of a determination by a healthcare provider or a public health authority that the worker's presence in the communicable disease. Additionally, the 7-day unpaid waiting period will not apply when a worker uses TDI in the event of organ or bone marrow donation.

<sup>53</sup> The unpaid waiting period is waived for claims filed between October 1, 2021 and the 365<sup>th</sup> day after the end of the public health emergency. The COVID-19 public health emergency was declared on March 11, 2020 pursuant to Mayor's Order 2020-046 and has been extended several times. For the text of Mayor's Order 2020-046, see

https://mayor.dc.gov/sites/default/files/dc/sites/mayormb/release\_content/attachments/MO.DeclarationofPublicHealthEmergency03.11.20.pdf. For the latest orders from the mayor regarding the public health emergency, see <a href="https://coronavirus.dc.gov/healthguidance">https://coronavirus.dc.gov/sites/default/files/dc/sites/mayormb/release\_content/attachments/MO.DeclarationofPublicHealthEmergency03.11.20.pdf</a>. For the latest orders from the mayor regarding the public health emergency, see <a href="https://coronavirus.dc.gov/healthguidance">https://coronavirus.dc.gov/healthguidance</a>.

<sup>54</sup> A worker returning from TCI leave must be restored to the worker's prior position or "a position with equivalent seniority, status, employment benefits, pay, and other terms and conditions of employment including fringe benefits and service credits that the employee had been entitled to at the commencement of leave." Workers who receive health insurance through their employers are entitled to continuation of those benefits while on TCI. <sup>55</sup> Additionally, the law specifies that job-protected leave can be taken to be an organ or bone marrow donor.

<sup>56</sup> A worker returning from PFL must be restored to the worker's prior position or "a comparable position with comparable employment benefits, pay and other terms and conditions of employment." Workers who receive health insurance through their employers are entitled to continuation of those benefits while on PFL.

<sup>57</sup> Workers are entitled to job protection under the state paid family and medical leave law only if they work for an employer with at least 50 employees, have been employed by that employer for at least 12 months, *and* have worked for that employer for at least 1,250 hours during the 12-month period immediately preceding leave. A worker entitled to job protection under the law must be restored to the worker's prior position or "an equivalent position with equivalent employees may be subject to a very narrow exception. Workers who receive health insurance through their employers are entitled to continuation of those benefits while on leave *if* their employers would be required to continue benefits under the Family and Medical Leave Act.

<sup>58</sup> A worker returning from paid family or medical leave must be restored to the worker's prior position or "an equivalent position, with the same status, pay, employment benefits, length of service credit and seniority as of the date of leave." Workers who receive health insurance through their employers are entitled to continuation of those benefits while on paid family and medical leave.

<sup>59</sup> Through the law creating its paid leave program, Connecticut amended the Connecticut Family and Medical Leave Act (CTFMLA), which provides job protection, to cover essentially all private sector and state employees entitled to paid leave benefits except those receiving benefits for safe time purposes. Note that CTFMLA does not protect workers' health insurance. Workers receiving benefits for safe time purposes may have employment protections under Connecticut's family violence leave law.

<sup>60</sup>A worker returning from leave under Oregon's law must be restored to the worker's prior position or "any available equivalent position with equivalent employment benefits, pay and other terms and conditions of employment." If a worker's employer has fewer than 25 employees and the worker's prior position no longer exists, the worker's "employer may, at the employer's discretion based on business necessity, restore the eligible employee to a different position with similar job duties and with the same employment benefits and pay." Workers who receive health insurance through their employers are entitled to continuation of those benefits while on paid family and medical leave.

<sup>61</sup> Note that workers who receive health insurance through their employers are entitled to continuation of those benefits while on leave, regardless of how long they've worked for their employer. Additionally, workers who exercise their rights to paid family, medical and safe leave are protected against retaliation or discrimination. Workers receiving benefits may also have employment protections under Colorado's domestic violence leave law. <sup>62</sup> See Haw. Rev. Stat. § 392-1 *et seq.* For more information, visit <u>https://labor.hawaii.gov/dcd/home/about-tdi/</u>.
