

Annual Report to the Legislature

December 2021

Dr. Roberta Lucas

State Director of Child Development Services

146 State House Station

Augusta, Maine 04333

207-624-6660

The following information is presented to the joint standing committee of the Legislature having jurisdiction over the education and cultural affairs, the joint standing committee of the Legislature having jurisdiction over health and human services matters, and the joint standing committee of the Legislature having jurisdiction over the appropriations and financial affairs regarding the performance of the Child Development Services System. This report can also be found at <https://www.maine.gov/doe/learning/cds/reporting>.

The contents of this report include the requirements detailed in Maine Education Statue Title 20-A Part 4, Chapter 303, Section 7209, E as follows:

(1) The following financial information for the Child Development Services System in total and separately for the services provided to eligible children from birth to under 3 years of age and at least 3 years of age and under 6 years of age when the information can be separated for these age categories;

(a) Actual expenditures compared to the budget for each of the last 3 fiscal years for each regional site, the central office, and the total Child Development Services System by function, including case management, direct services and administration;

Actual Expenditures Compared to Budget Last Three Fiscal Years - By Function									
	June	Budget	Variance	June	Budget	Variance	June	Budget	Variance
	FY2021	FY2021	FY2021	FY2020	FY2020	FY2020	FY2019	FY2019	FY2019
CM/CF Total	\$8,835,032	\$9,346,340	\$ (511,308)	\$7,687,528	\$7,890,332	\$ (202,803)	\$5,253,244	\$5,656,937	\$ (403,692)
Total Direct Service	28,438,015	30,594,422	(2,156,407)	28,366,801	30,358,404	(1,991,603)	27,240,274	25,353,010	1,887,264
Total Admin	6,832,449	6,732,957	99,491	5,782,685	6,434,345	(651,660)	5,732,498	6,490,035	(757,537)
TOTAL	\$ 44,105,496	\$ 46,673,719	\$ (2,568,223)	\$ 41,837,015	\$ 44,683,081	\$ (2,846,066)	\$ 38,226,016	\$ 37,499,982	\$ 726,034

For Regional site information see appendix A.

(b) Actual expenditures compared to the budget for each of the last 3 fiscal years for each regional site, the central office, and the total Child Development Services System by expense type, including salaries, benefits, contracted services and transportation;

See appendix A.

(c) *Actual revenues received compared to the budget for each of the last 3 fiscal years by revenue source; and*

Actual Revenues Compared to Budget Last Three Fiscal Years - By Function									
	Actual Revenue	Budget	Variance	Actual Revenue	Budget	Variance	Actual Revenue	Budget	Variance
	FY2021	FY2021	FY2021	FY2020	FY2020	FY2020	FY2019	FY2019	FY2019

TOTAL	\$40,131,357	\$46,922,343	(\$6,790,986)	\$44,339,020	\$44,813,588	(\$474,568)	\$42,728,201	\$40,975,164	\$1,753,037

* Federal funding for Parts B & C were not accessed during FFY2021 due to reduced spending during the pandemic and periods of preschool and other private setting closures that CDS accesses to provide services. Because of the impacts of remote learning, a fiscal decision was made to allocate federal funds to FFY2022 in anticipation of increased expenses when preschools and private settings reopened.

(d) *The total dollar value of MaineCare claims paid through the Department of Health and Human Services for each of the last 3 fiscal years for services provided pursuant to children’s individualized education programs or individualized family service plans that were billed directly to the MaineCare program by contracted service providers;*

Currently, the Office of MaineCare Services is unable to provide information that differentiates reimbursement to contracted service providers for services provided per children’s Individualized Education Programs or Individualized Family Service Plans and additional *medically necessary* services provided to children birth-to-5 years of age.

(2) *The following data for the Child Development Services System in total and separately for the services provided to eligible children from birth to under 3 years of age and at least 3 years of age and under 6 years of age, including descriptions of any notable variations in these data among regional sites and any notable year-to-year trends over the past 5 years:*

(a) *The number of children referred to the Child Development Services System in the prior year by referral source, including the screening programs in Title 22, sections 1532, 8824, and 8943, and the percentage of children referred found eligible for services;*

Totals	8	109	106	98.04%

*enrollment data as of 12/6/21

Preschool programs have been established in the above listed locations and are identified with the label PS to differentiate them from those currently operated by CDS at the site-level.

- (e) *The number of children who received direct services in the prior fiscal year while placed in preschool programs operated by public school systems;*

Between 7/1/2020 and 6/30/2021, 1,534 children attended a public pre-k program (as indicated in the Child Information Network Connection (CINC) data system).

(4) Statistics and analysis of the following Child Development Services System performance measures for the prior fiscal year, including descriptions of any notable variations in these measures among regional sites and any notable year-to-year trends over the past 5 fiscal years;

(a) Measures of compliance with key federal requirements related to timeliness, quality and effectiveness of service as set out in required annual federal reporting under the federal Individuals with Disabilities Education Act;

Summary of site-specific indicator data for FFY 2017 through FFY 2021. Detailed information can be found in Annual Performance Reports located at <https://www.maine.gov/doe/cds/stateperformance>.

(b) Measures of compliance with key state requirements related to timeliness, quality and effectiveness of service as set out in statute and rules; Summary of site-specific indicator data for FFY 2013 through FFY 2017. Detailed information can be found in Annual Performance Reports located at <https://www.maine.gov/doe/cds/stateperformance>

Part C-Early Intervention FFY2020 Data Summary by Regional CDS Site

The federal Part C regulations at 34 CFR §303.702(b) require each State to report annually to the public on the performance of each Early Intervention Service (EIS) program located in the State on the targets in the State’s performance plan “as soon as practicable but no later than 120 days” following the State’s Annual Performance Report (APR) submission. The following table is posted on the CDS website (<https://www.maine.gov/doe/cds/stateperformance>). The APR serves as the report of the state targets and performance of each EIS program for Indicators 1-8 in FFY 2019 and can be accessed through the CDS website ([ME-C-SPPAPR-FFY19_Final_0.docx \(live.com\)](https://www.maine.gov/doe/cds/stateperformance)).

- (e) *Beginning January 1, 2015, the average age, both in aggregate and by primary disability type, at which children who were born in the State began receiving services from the Child Development Services System and the average age, both in aggregate and by primary disability type, at which children who were born in the State and who were delivered at home began receiving services from the Child Development Services System;*

This reporting feature is not yet available in the Child Information Network Connection (CINC) data system.

- (f) *Any other performance goals and measures established by the Child Development Services System to monitor effectiveness, efficiency and the cost of the Child Development Services System, which may include results of surveys of parents and guardians on the quality and effectiveness of services;*

(5) Beginning January 1, 2015, a report by each regional site in the Child Development Services System demonstrating trends of Child Development Services System employee costs and the results of coordination, utilization and development of services with a broad base of community resources, including private providers and public schools, midwives, resources from other agencies and other resources serving families and children from birth

to under 6 years of age, consistent with the provisions of Title 22, section 3571, subsection 3; and

Improved Outcomes

During this reporting year (2020-2021), there was a change in administrative leadership in Child Development Services. In October 2020, Dr. Roberta Lucas assumed leadership of CDS, as well as serving as the 619 Coordinator, and Jamie Michaud became the new Part C Coordinator. With the new administration in place, an appraisal of the current Child Development Services (CDS) system was conducted, and systemic reforms were adopted to meet compliance for IDEA both in Part C and in Part B.

Systemic reforms included improving early interventions by expanding statewide outreach to primary referral sources and offered trainings and information. As a result of this and other reform efforts, and in contrast to national trends in which many states across the country witnessed significant decreases in the number of infants/toddlers being referred to and served under Part C, Maine's early intervention program saw increases in its Child Find percentages for all age ranges in FFY20. Maine's Child Find data shows that, from FFY19 to FFY20, Part C enrollment increased 81% with infants (birth to 1) and 19% with toddlers (1 to 2-year-olds), with an overall increase of 22% (birth through age 2). Some of this increase can be attributed to the ongoing outreach efforts of our Part C staff at both the state and local levels, as well as the release of updated established conditions that make children under age 3 automatically eligible for early intervention. There has also been an increase in referrals for Part B year over year by approximately 30%. CDS administration leveraged the increased use of remote meetings and trainings that became commonplace during the pandemic and participated more cross-agency collaborations. These expanded collaborations were recently the subject of a national conference on comprehensive systems change where Jamie Michaud, Part C Coordinator, presented about the unique opportunities that have presented themselves during the Pandemic and that have had a positive impact on participation in Part C Services.

CDS Preschool Expansion

In March of 2021, CDS added a state-level staff position to oversee preschool program development with an initial focus in York and Cumberland counties, and then expanding statewide. This position allows CDS to better explore student needs to increase opportunities to deliver services in the least restrictive environment. This position also works with local school administrative units (SAUs) to explore public preschool expansion and inclusive programming for children with disabilities.

The need for CDS preschool programming was an option that was considered and implemented. The new program director opened the first preschool program in August 2021. The four new pre-school sites provide a total of ten classrooms (detailed

information by preschool is provided below). Two preschool locations are in York County (Arundel & Biddeford) and two are in Cumberland County (Gray and Brunswick). Children in both counties and in neighboring counties have access to these programs. CDS is exploring additional locations for preschool expansion in other areas of the state as well. Additional locations are being explored in Bath, Biddeford, Lewiston, and Portland.

With the expansion of new programming at CDS, a Preschool Director/Curriculum Coordinator was hired to ensure the continuity of programming across the CDS preschool classrooms. Additionally, CDS has contracted with a special education consultant to provide professional development for teachers as they assume additional responsibilities in the management of their caseloads. CDS will also add assistant program manager(s) as enrollment needs increase to provide on-site support for preschool special educators and serve as a resource to parents and families.

CDS preschool programs are designed in half-day sessions of 3 hours each and all CDS preschool programs offer morning and afternoon sessions. Students may be enrolled from two to five days a week depending on the level of need, parent choice or the service to be delivered. Related services are provided in the preschool setting. Typical student-to-staff ratios are 3:1, 2:1, or 1:1, depending on the design of the classroom. Enrollment for CDS preschools is managed by the Program Manager/Curriculum Coordinator to ensure each child is appropriately placed in the programs, as determined by the child's IEP team.

CDS preschools are designed with both inclusive and special education settings, although due to staffing shortages all children attending CDS preschools as of the date of this report are children with disabilities. There are waiting lists at each site for typically developing peers; these slots will be filled as staffing increases. CDS continues to actively recruit, hire, and train employees to staff their preschool programs. As with many school settings in Maine, this has been a difficult process.

CDS administration has been working to support the transitions of service delivery with preschool classroom design created to reflect a public school delivery model. This model was approved by the Collective Bargaining Unit for CDS and was implemented with the opening of the first CDS preschool classroom.

Circle of Learning - Preschool classroom locations in Cumberland County:

Gray: The Circle of Learning program in Gray opened on August 30, 2021. The program consists of six classrooms, enrolling 15 children. When fully staffed, the program's maximum capacity is 184 potential slots in their morning and afternoon programs. This capacity may be less if children require five days a week or if classrooms have higher staff-to-student ratios. Gray has four special education preschool teachers, one educational technician, and one occupational therapist, with other related services being provided by contracted providers.

Brunswick: The Circle of Learning program in Brunswick opened on November 1, 2021 in the Family Focus building. The program has one classroom; operating in the morning session as a special education classroom and the afternoon session is inclusive for children to practice new skills with typically developing peers. There is one special education preschool teacher and two educational technicians on site. There are 10 children currently enrolled with a maximum capacity of 26 students when fully staffed. Related services are provided through a combination of contracted and itinerant providers. This location shares some common areas and access to typically developing peers in the Brunswick Family Focus preschool program.

Children's Journey - Preschool classroom locations in York County

Arundel: The Children's Journey program in Arundel opened on August 30, 2021 and has two classrooms that currently enroll 15 children. When fully staffed, the program's maximum capacity is 52 students. There are two full special education preschool teachers and four educational technicians and an occupational therapist on site. Other related services for children at this site are provided through contracted providers.

Biddeford: The Children's Journey program in Biddeford opened on October 5, 2021 (Pool Street) and has two classrooms, enrolling 15 children. When fully staffed, the program can accommodate 80 students. There is currently one special education preschool teacher, four educational technicians, and one occupational therapist on site. Other related services for children at this site are provided through contracted providers.

CDS Regional Sites

Services for Part B and Part C services are managed through nine regional sites. Throughout the pandemic, all nine CDS sites have consistently reported ongoing staffing shortages that directly impacted the level of services each program had the capacity to deliver to be provided to children with an IEP. A Site Director is employed at each site to oversee all operations as well as programming and placement. Throughout this year, in response to staff shortages, site directors have also provided direct services at their sites, depending on their certification or licensure. In addition, CDS administration has recruited seven retired special education administrators to support the challenges related to staffing shortages. These returning educators serve in a variety of roles to support the effective operation of the system.

CDS Aroostook: Aroostook's new Acting Site Director is Becky Gilman. The partnership with Aroostook County Action Program (ACAP) remains strong and a full continuum of placement options are available, enabling all children to be educated with typically developing peers to the greatest extent possible. Because of the full continuum of options in each of the four locations across Aroostook County, children can easily transition, with adult support, for portions of the day within the same building. In addition, several of the local SAUs have reached out to explore partnerships with CDS and are exploring preschool expansion possibilities to support the needs of all children

in their catchment area. In addition to her work as the Site Director, Ms. Gilman also provides required evaluations for children in Part B.

CDS Two Rivers: Brewer continues to operate under the direction of Amy Bragg, a licensed Speech Pathologist. In addition to her work as the director, Amy also manages a caseload of children who require speech evaluations as a part of the eligibility criteria. Amy manages two programs in collaboration with Penquis Head Start: one in Brewer, the other in Dover-Foxcroft. Two Rivers continues to build relationships with area school districts and is now contracting with six local school administrative units, to provide services including speech, occupational therapy, specially designed instruction, and adult support. The Early Intervention Team at Two Rivers continues their ongoing collaborations with Bangor Public Health and Community Services and Family Enrichment Services (e.g., Maine Families, Community Partnerships for Protecting Children, and the Child Abuse and Neglect Prevention Council) through Penquis.

CDS PEDS: Barbara Brown is the Site Director of PEDS, and she manages the Waterville office and a satellite office in Farmington, as well. These sites maintain partnerships with Maine Child Psychology, KVCAP-Educare, and University of Maine Farmington to increase awareness of CDS services. Barbara continues to leverage various opportunities for services through telehealth and local private providers, while managing a caseload of speech evaluations for children in her catchment area. There has been renewed partnerships with Edmund N. Ervin Pediatric Center & PEDS, with meetings quarterly to collaborate on referrals and services for children, as needed.

CDS Downeast: Denise Howell, the Regional Site Director, manages both CDS Downeast and a satellite office in Machias. These two offices serve approximately 220 children with outreach to many SAUs in Washington and Hancock counties, as well as with outside contracted providers. In September, CDS provided a hybrid model of services, with a combination of remote services and in-person services based on family choice and school availability for children ages three to five. Infants and toddlers received remote services through Part C Service Providers. CDS Downeast continues to contract with related service providers throughout the state to provide evaluations and related services. Most recently Downeast worked with an outside provider to provide remote Early Start Maine services through the early intervention program.

CDS Midcoast: The CDS Midcoast site is managed by Gail Page, a Licensed Clinical Social Worker (LCSW). In addition to managing these two sites, Gail also evaluates children who are referred for emotional needs as part of a referral or request for re-evaluation. Midcoast also operates a preschool on site, serving 27 children. There have been partnerships with surrounding SAUs, increasing the capacity to meet the needs of eligible children in the region.

CDS Opportunities and CDS First Step are managed by one site director. CDS State Director, Dr. Roberta Lucas, has stepped in to serve as Interim Site Director along with a part-time retired special education director to manage both sites. There have been some changes in administrative responsibilities because these two sites now share one

office operations manager. Expansion is being explored in the Augusta area as a satellite site to provide therapies and evaluations to support local children and families.

CDS Reach: Administration of the CDS Reach site changed with Lori Whittemore moving into program development across the State. Sarah D'Amico, Reach's program manager, stepped into Lori's role as Acting Site Director. A partnership with Southern Maine Children's Collaborative provided related services and the provision of public preschool for Reach. Due to the size of the catchment area, an additional program manager was hired to meet overall needs of children and families.

CDS York: Pam Scribner, Acting Site Director, acts as both Director and Program Manager at the York Site. Recently, CDS York began to collaborate with Waban, a special purpose preschool in the area, to provide case management for children Sanford, Maine, to meet the needs in the area. Partnerships with local SAUs increased to multiple school districts (municipalities and Regional School Units). These SAUs partner with CDS York to provide school-based services to CDS York children who receive special education services. These services include specially designed instruction, speech therapy, occupational therapy, physical therapy, behavioral health services, assistive technology services, social work and counseling, consultation, and transportation services.

(6) A description of current and emerging trends and challenges that are having an effect on or are expected to have an effect on costs, services or service delivery methods of the Child Development Services System; and [2013, c. 338, §1 (NEW).]

The pandemic has posed unprecedented challenges that have affected traditional service delivery. CDS has responded to this adversity by exploring different service-delivery models, including providing services remotely. CDS has also experienced extraordinary challenges with recruiting and hiring qualified staff. This mirrors the trend of workforce shortages occurring in SAUs in Maine and across the nation. Administration has been working to increase collaboration with SAUs and private service providers to support children in accessing their preschool special education services. CDS staff have been attending regional meetings at Maine Administrators of Services for Children with Disabilities (MADSEC) and Maine Association for Community Service Providers (MACSP) to continue to expand its network of providers and form new partnerships on behalf of preschool aged children.

CDS currently partners with 36 SAUs statewide, which is a 66% increase over last year when CDS partnered with 12 SAUs. Each partnership requires a Memorandum of Understanding (MOU) and a contract that outlines the reimbursement that CDS will pay for the services contracted for with the SAU. The chart below shows the various level of services provided:

	SDI Itinerant	SDI Classroom	Speech / Lang	Social Work	OT	PT	Psych	Transportatio	BCBA	ECETA	Ed Tech Supp.	Nurse	Audio
SAUs (36)	1	11	24	6	15	8	3	5	3	0	18	1	1

Along with SAU partnerships, CDS partners with 14 programs which also have a MOU and contract to be reimbursed through CDS for services provided.

	SDI Itinerant	SDI Classroom	Speech / Lang	Social Work	OT	PT	Psych	Transportation	BCBA	ECETA	Ed Tech Supp	Nurse	Audio
Programs (14)	1	4	1	1	0	0	1	3	2	1	4	0	0

These partnerships have allowed CDS to provide services to children that were not otherwise available. They have also allowed CDS and SAUs to begin to collaborate to address the needs and provide services for children in anticipation of SAUs assuming responsibility for four-year old children with disabilities.

Currently there are 152 SAUs that offer at least one public Preschool classroom in 239 schools. The first years of life are a critical developmental time in forming the basis for learning and social interaction. Investments in early learning have powerful, long-term paybacks. The pandemic heightened the difficulty that many Maine parents/caregivers already faced in struggling to locate pre-kindergarten or childcare. Access gaps are especially acute in Maine’s rural communities. The Maine Jobs and Recovery Plan has committed \$10 million to address these access gaps. Maine’s Department of Education continues to help schools increase the number of children accessing high-quality pre-kindergarten by offering funds to establish or expand [public pre-k programs](#). Through multiple rounds of competitive grants, the Department will provide funding to local school administrative units to cover facility renovations, staff recruitment and training,

and other start-up costs linked to establishing new public pre-kindergarten programs, adding new classrooms, or transitioning from part-day/part-week to full-day/full-week programs. Priority will be given to schools that partner with community programs such Head Start or childcare, provide longer duration of education, and serve socioeconomically disadvantaged students. The Department will also provide technical assistance and professional learning to school administrative units for prekindergarten expansion. Recently 14 applicants (SAUs) were granted an award for the expansion of public preschool for the 2022-23 school year. <http://www.maine.gov/dafs/bbm/procurementservices/vendors/grants>

Analysis of job descriptions and functions

During July and August of 2021, several CDS administrators and the Human Resource Director met to review all job descriptions. The purpose of this activity was to determine what professional development would be needed for employees when four-year old students move to public schools. This work will continue throughout the period of transition.

Although CDS is working to offer competitive compensation and benefits, 21.8% of budgeted positions were vacant as of the writing of this report. This inability to fill vacant positions and to recruit qualified contracted providers mirrors challenges that many of Maine’s SAUs are facing as well. As a result, there continue to be children waiting to receive some or all the services identified on their IEPs, although the initiative to expand preschool programming through CDS initiatives is serving to reduce this number.

To increase the workforce for preschool aged children, CDS has entered a partnership with Kennebec Valley Community Action Program (KVCAP) to apply for an AmeriCorps /. This is just one of the ways CDS is trying to support staff development. If successful, this grant will provide preschool staff during the summer of 2022.

In addition to efforts to add new employees, CDS administration continues to explore ways to retain the existing workforce. CDS has recently obtained a federal grant to provide an unprecedented professional development opportunity for CDS staff. Through a partnership with the University of Maine System, a program for existing staff is being developed to provide a personalized educational experience with the goal of supporting the completion of the Teacher of Students with Disabilities endorsement (282). This will assist CDS in providing services and support staff transitioning to SAUs in the future.

Systemic efforts on the increase of Part C referrals

The Part C Coordinator developed and implemented a statewide outreach plan in January of 2021. The statewide outreach plan identified a list of primary referral sources (i.e., primary care physicians, audiologists, home health agencies) that needed to be contacted by each regional CDS site annually. To facilitate the statewide outreach, the Part C team developed presentations and materials defining Maine’s Part C program and delivered these resources to a total of 1,144 different referral sources across the state in FY20. Consequently, the total number of Part C referrals increased by 7% in FY20, and there was a 22% increase in the total number of children with Individual Family Service Plans (IFSPs).

Maine’s Part C program for infants and toddlers has been shared with other states and countries as a model of excellence. These recent recognitions have occurred because of the significant refinements to Maine’s program that have occurred in the past two years. Since 2019, the Part C team has enhanced coordination across child servicing agencies, hospitals, and physicians’ practices to increase referrals to the early intervention system; cross-agency collaboration to update and expand Maine’s list of established conditions that make children under age 3 automatically eligible for early intervention services; and the inclusion of Maine’s early intervention program on the referral form for CradleMe, a free referral system that is available to all birthing families in Maine to help connect them with the right services to meet the needs of their baby and family. The inclusion of the intervention referral forms integration into the CradleMe system has yielded a 164% increase in referrals made to Part C by hospitals in 2021 and an increase of 82% in the number of infants (birth to age 1) enrolled in Maine’s Part C program from 10/1/20 to 10/1/21.

Emerging Fiscal Trends

The effects of the pandemic can also be seen in the FY21 financials, which have been inconsistent with historic trends. There were periods in 2020 where services shifted to remote opportunities, making it challenging to provide services that needed to occur in-person, such as psychological evaluations. Shortages in service providers as well as critical shortages in education staff have impacted service delivery methods. Costs have shifted to support this new era of operations. To address the increasing complexities of the shifting costs as well as the additional reporting responsibilities associated receiving and expending federal funds, CDS increased fiscal management capacity in 2021 by adding a manager. During the summer and throughout the subsequent 2020-2021 school year, CDS resumed in-person services, although there were disruptions due to staffing shortages and breaks in services as a result of COVID cases in children and staff.

Recently proposed legislation to transition preschool aged children to SAUs and to provide a Part C Extended Option will have a significant impact on projected fiscal trends. These legislative initiatives will create major changes to the CDS service delivery model, which will affect future budgets. The separation and subsequent rebranding of Part C programming from CDS will also have fiscal implications. CDS has obtained

federal grant monies to support a renaming and marketing campaign, but these funds do not support the increased administrative roles that will be necessary for the operations of Part C.

Coronavirus Relief Funds (CRF) were used to purchase resources to mitigate the transmission of the virus, including the purchase of personal protective equipment (PPE) for staff and students; replacing of carpeting and chairs made from porous, hard to clean, materials with non-porous, easy to clean, material options; and cleaning supplies to meet enhanced cleaning protocols. Because students could not share many classroom materials, these funds were also used to purchase learning materials that allowed continued safe learning. CRF funds were also used to purchase technology to support remote instruction. Finally, these federal monies allowed CDS to expand preschool programming to provide services to children without programming due to COVID-19 related private preschool closures.

These expenses are reported in the table below.

CRF	Purchase Services	Supplies	Teaching Supplies	Tech & Equipment	Total
Aroostook		886.12	340.73	329.00	1,555.85
Downeast		2,435.65	14.87	449.85	2,900.37

Legislative Report:

In the last legislative session, three CDS-related bills passed. The bills represent an opportunity to enhance the way early childhood education is delivered to Maine’s newborn to five-year-old children.

LD 135: A Resolve, Directing the Dept. of Education and the Dept. of Health and Human Services to Study a Centralized Billing Process for Developmental and School-based Services Covered by the MaineCare Program and Other Insurers and Report on Updates to the Child Find Process. The bill asks the DOE to address school-based Medicaid billing in the state of Maine and to offer recommendations to improve the amount of federal compensation coming to the state. It also asks the DOE to examine the eligibility criteria of Part C Services and to make a recommendation around an expansion of this criteria.

LD 255: A Resolve, Directing the Department of Education to Develop a Plan for the Provision of Early Intervention Services asks the DOE to explore and, with stakeholder input, make a recommendation around the Extended Part C option. The bill also requires the DOE to develop a recommendation regarding the provision of services for three -year-old children.

LD 386: A Resolve, Directing the Department of Education to Establish the Process for Transitioning the Provision of Early Childhood Special Education Services for Children with Disabilities from 4 Years of Age to under 6 Years of Age from the Regional Child Development Services System to School Administrative Units. This resolve asks the DOE to create a timeline and detailed transition plan to transition children four years of age and older to the SAUs. Like LD 255, this bill also requires the Department to develop a recommendation regarding the provision of services for three -year-old children.

The tasks outlined in LDs 135, 255, and 386 were accomplished by the DOE team during the COVID-19 pandemic, an extraordinary time for Maine’s education system requiring an unprecedented level of support, technical assistance, and emergency management. During this remarkably challenging time, the DOE team also launched 11 new CDS classrooms to address statewide need and is working collaboratively with stakeholders and the prescribed advisory committee to propose targeted changes to address specific elements within Maine’s federally compliant and nationally recognized Part C program. The three legislative reports that will be reviewed in February of 2022 by the Joint Standing Committee on Education and Cultural Affairs detail key components of reform for Maine’s early intervention services system.

APPENDIX A (1 b)
