**This message originates from outside the Maine Legislature.**

Good morning Rachel,

The Lewiston and Auburn Police Departments BOTH switched to a new 800MHz radio system in 2021 which utilizes encryption. The FBI CJIS (Criminal Justice Information Systems) Policy requires us to use encryption as it is an available option on our system.

I am aware that Chief Moen of the Auburn Police Department already sent you the CJIS manual so I have not attached it.

Policy Area 5.13 addresses Mobile devices which include LMR (Land Mobile Radios). On page 66 Paragraph 9 under wireless protocols, it states "Enable all security features of the wireless product, including the cryptographic authentication, firewall, and other available privacy features".

**David St. Pierre**  
CHIEF OF POLICE

**Lewiston Police Department**  
171 Park Street, Lewiston, ME 04240  
(207) 513-3137
