RE: Biennial Budget Report-back

The Agriculture, Conservation and Forestry (ACF) Committee is pleased to submit the following report for the proposed 2024-25 biennial budget initiatives relating to agriculture, conservation and forestry (see attached report-back document). We voted unanimously in favor of all initiatives and language parts with the exception of the following:

- a) The ACF Committee unanimously voted OUT Ref. # 329 on Page 12 and language part DD on Page 110.
- b) The ACF Committee voted unanimously to AMEND Ref. #527 on Page 30. Currently, this initiative, which capitalizes the Fund to Address Food Insecurity and Provide Nutrition Incentives provides one-time funding in the amount of \$600,000 each fiscal year in the 2024-25 biennium. **The ACF Committee voted unanimously in favor of amending this initiative to provide ongoing funding, rather than one-time funding, to support programs that address food insecurity and provide nutrition incentives.**

The ACF Committee recently voted unanimously in favor of LD 568, An Act to Provide Funding for the Fund to Address Food Insecurity and Provide Nutrition Incentives. This bill proposes to provide ongoing General Fund appropriations of \$600,000 to the Fund to Address Food Insecurity and Provide Nutrition Incentives within the Department of ACF. The bill also removes the \$50,000 limit on matching contributions from the fund criteria.

c) The ACF Committee vote for Ref. #355 on Page 63 was divided with 6 in favor and 6 opposed.

d) A majority of the ACF Committee voted in favor of the following initiatives:

- Ref. #357 on Page 64; 11 voted in favor and one voted in opposition.
- Ref #358 and 359 on Page 64; 10 voted in favor and one voted in opposition.

In addition, the ACF Committee voted unanimously in favor of the following proposed changes to the biennial budget.

1. Maine Meat and Poultry Inspection Program

This new initiative establishes one Consumer Protection Inspector position for the Maine Meat and Poultry Inspection program and provides funding for related All Other costs. This new initiative is in ADDITION to the initiative Ref. #308 and 309 on Page 5 and Ref. #345 on Page 62. The intent is to establish 2 new Consumer Protection Inspector positions rather than one as proposed in the biennial budget. See Ref. #308 and 309 on Page 5 and Ref. #345 on Page 62 for associated costs and funding details.

2. One-time Dairy Stabilization Subsidy

This new initiative directs the administrator of the Maine Milk Pool to distribute to qualifying in-state milk producers a one-time payment if the milk producer produced milk in calendar year 2022 and reported such production to the Maine Milk Pool administrator for calendar year 2022 and if the milk producer is currently participating in the Maine Dairy Stabilization “Tier” Program. The one-time payment will be based on a milk producer’s total milk production in calendar year 2022 up to a production cap of 5 million pounds per milk producer.

The ACF Committee recommends the addition of this initiative to allocate the transfer.

Maine Milk Commission 0188

Initiative: Provides a one-time allocation to allow distribution of pandemic volatility payments to Maine dairy farmers who meet specific milk production criteria.

	2023-24
<i>Other Special Revenue Funds</i>	<i>\$1,500,000</i>
<i>Total</i>	<i>\$1,500,000</i>

The following is corresponding unallocated language for this initiative:

Notwithstanding any provision of law to the contrary on or before July 30, 2023, the State Controller shall transfer \$1,500,000 from the unappropriated surplus of the General Fund to the Department of Agriculture, Conservation and Forestry, Maine Milk Commission, Maine Milk Pool, Other Special Revenue Funds account to provide one-time pandemic volatility payments to Maine milk producers who produced milk and reported production information to the Maine Milk Commission in the calendar year starting January 1, 2022, and ending December 31, 2022

and if the milk producer is currently participating in the Maine Dairy Stabilization "Tier" Program. In calculating the payment, the administrator of the Maine Milk Pool shall attempt to achieve, insofar as practical, a proportional distribution of the entire transferred amount to farmers by basing the payments on a per hundredweight production basis and limiting payments to a production limit of 5 million pounds per farm. The administrator of the Maine Milk Pool may use existing distribution methods within the Maine Milk Pool program to expedite the distribution of payments.

We would like to take a moment to acknowledge that this initiative is just the tip of iceberg in terms of addressing the dairy crisis in Maine. The Dairy Stabilization, or Tier, Program has done a respectable job of supporting dairy farmers during cyclical market swings, but what has occurred in the past few years has been extraordinary and severe. In 2019, prior to the COVID pandemic, there were 214 dairy farms in Maine. Currently, only 163 remain with many of those farms on the verge of going out of business. Maine has lost nearly one-quarter of its dairy farms over the last few years.

The ACF Committee recognizes that dairy farms play an important role in the agricultural landscape and economy. We cannot overstate this crisis. In the coming weeks, the ACF Committee will be hearing and working LD 384, An Act Addressing Agriculture, Conservation and Forestry in Maine, which is a concept draft sponsored by Representative Pluecker. The sponsor has expressed his intent to use this bill to provide additional emergency stabilization funds for dairy farms in Maine. Specifically, the sponsor's amendment to the concept draft will propose an additional one-time payment to Maine milk producers at a rate of one dollar per hundredweight of milk produced totaling approximately \$5.5 million.

3. Board of Pesticides Control

The committee voted unanimously in favor of changing the funding source for 5 horticulture program positions, which are currently funded by the Board of Pesticides Control, Other Special Revenue funds, to the General Fund. See attached (Attachment "A") for position titles and associated costs.

4. New Language Part regarding Quality Assurance Feed, Seed and Fertilizer Database

This new language will allow the Department of Agriculture, Conservation and Forestry (ACF), Bureau of Food and Rural Resources to carry forward funds for the development and implementation of a new database for the feed, seed and fertilizer program.

The ACF Committee voted unanimously in favor of this additional initiative, which was proposed by the Department of ACF. Pursuant to P.L. 2021, chapter 635, in SFY 2023, the department received a General Fund appropriation of \$550,000 to replace the Quality, Assurance Feed, Seed and Fertilizer database. These funds will expire on June 30, 2023. This new language part will allow these funds to carry into SFY 2024 as needed. The following is draft language as proposed by the department:

Carrying provision; Department of Agriculture, Conservation and Forestry, Bureau of Agriculture, Food and Rural Resources. Notwithstanding any other provision of law to the contrary, at the end of fiscal year 2022-23, the State Controller shall carry forward any

unexpended balance remaining of the \$550,000 appropriated in Public Law 2021, chapter 635, in the Department of Agriculture, Conservation and Forestry, Bureau of Agriculture program, General Fund account, All Other line category to the next fiscal year to be used for replacement and hosting of the feed, seed and fertilizer database.

In addition, the committee unanimously voted in favor of requesting that your committee explore increasing the statutory thresholds for public improvement projects as referenced in Title 5, sections 1741, 1742, 1743 and 1745 and specifically for projects under the jurisdiction of the Department of Agriculture, Conservation and Forestry, Bureau of Parks and Lands (BPL).

Back in June of 2022, the Governor announced a \$50 million investment, using federal American Rescue Plan funds, to fund maintenance and infrastructure and maintenance projects at BPL's 48 State parks. ACF Committee members are concerned that federal dollars will be left on the table if funds set aside for this purpose are not spent by the federal deadline. The ACF Committee suggests an increase of 60 percent for the statutory thresholds in Title 5 for architecture, engineering and construction.

Finally, we would like to acknowledge that the ACF Committee discussed at length two additional proposals that we considered worthy, but decided not to include in our biennial budget memo at this time.

First, the committee considered including initiatives proposed in the committee amendment to LD 315, An Act to Provide Funding for Drought Relief and Other Programs Benefitting Maine Farmers. The biennial budget includes funding to capitalize the Farmers Drought Relief Program created by P.L. 2021, chapter 729 – which the ACF Committee unanimously endorsed. Additionally, the unanimous committee report for LD 315 proposes to implement the recommendations of the Department of Agriculture, Conservation and Forestry January 2023 report, which provides ongoing for 3 full-time permanent positions: one within the Land Use Planning Commission; one within the Department of Agriculture, Conservation and Forestry, Bureau of Agriculture, Food and Rural Resources; and one within the Department of Environmental Protection's Water Withdrawal Program. The committee amendment also provides a one-time appropriation for the Land Use Planning Commission to hire a consultant to review and overhaul the current applications process to improve water withdrawal permitting.

Secondly, the committee considered Senator Brenner's LR 1018, An Act to Support Outdoor for All Maine Students. This bill establishes the Outdoor School for All Maine Students program and fund to support immersive outdoor education program experiences for publicly-funded students in grades 4 through 8.

Justification:

The Animal Welfare Program works to ensure humane and proper treatment of animals by administering the animal welfare laws of Maine through communication, education and enforcement. Duties include investigating animal cruelty complaints, training local animal control officers and inspecting and licensing boarding kennels, breeding kennels, animal shelters, pet shops, and research facilities. It also administers the "Help Fix ME" spay/neuter program for low income dog and cat owners.

Justification:

This request allows the Animal Welfare Program (AWP) Director to delegate management of Humane Agents and related field response activities to an experienced manager within the program. This position will manage critical animal welfare response planning and deployment, allowing for staff oversight and coordination with shelter partners while allowing the AWP Director to focus on other programmatic, administrative, and operational duties.

Justification:

Central Fleet Management within DAFS centrally procures, distributes and disposes of passenger and light truck vehicles. CFM handles many aspects of vehicle services including writing vehicle specifications, ordering vehicles, providing drivers with maintenance schedules, service assistance, fueling resources, insurance protection, and accident information processing. Central Fleet is established as an internal service fund intended to recoup their costs through daily and long term rental billings to departments and agencies. CFM expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including fuel and vehicle purchase price. This recoupment process results in increased billing rates to departments and agencies.

Justification:

The Bureau ensures that a safe, high quality food supply is maintained, that weighing and measuring methods and devices are correct, and that standards used in law enforcement are accurate. Additionally, the Bureau enforces feed and fertilizer laws, packaging and labeling laws, provides inspection services to the shell egg and fruit and vegetable industries, and tests all milk and milk products produced and sold in Maine for compliance with state and federal law.

Bureau of Agriculture 0393

Initiative: Continues one limited-period Planning and Research Associate II position previously continued in Public Law 2021, chapter 29 to work with The Emergency Food Assistance Program (TEFAP) and the Commodity Supplemental Food Program (CSFP) and provides funding for related All Other costs. Justification:

This request continues a position within The Emergency Food Assistance Program (TEFAP) responsible for food procurement and allocation, the monitoring of recipient agencies receiving assistance, and enhancing the existing Commodity Supplemental Food Program (CSFP) that supplements low-income elderly people's diets with USDA foods. A USDA audit highlighted necessary improvements by the department for its CSFP program, which this position will specifically focus on. This will extend the position to June 2025.

Justification:

This request adds one position within Quality Assurance and Regulation (QAR) to meet the overwhelming demand for inspection for legal recreational cannabis products and shops (scale calibration). Current staffing levels do not meet demand and existing CPI's are finding it difficult to service non-marijuana related constituents due to the increase in requests for calibrations services (in Weights & Measures).

Justification:

This request adds one position within Quality Assurance and Regulation (QAR) to meet the overwhelming demand for food safety work. There is an increase in retail food businesses requiring inspection of cannabis related products. QAR's assessment is that the immense demand for these services will require more personnel to keep pace with business demands.

Justification:

This request establishes one Maine Meat and Poultry Inspection Consumer Protection Inspector position to meet the steadily increasing demand for state inspection services. Recent federal grants have provided key financial support to businesses seeking state inspection, and the recent Agriculture Infrastructure Investment Program awards further provides necessary funding to several local processors. Meanwhile, three established, large processors have recently asked for more days of state inspection, which the program must attempt to cover with its current staffing level, leading to intense pressure on existing staff.

This request provides necessary and urgent upgrades to office and storage space that is home to 2 critical programs and related staff. In addition to the Weights and Measures and the Emergency Food Assistance Program (TEFAP) programs, it will serve as additional hoteling/telework space for existing and future Bureau staff. The request will modernize extremely dated areas to make the bathrooms ADA compliant; provide necessary and energy efficient upgrades (lights, insulation, window replacement), contain asbestos, and allow for more functional usage of office and storage space for programmatic needs in the department.

Justification:

This critical request is to modernize and overhaul Quality Assurance and Regulation's existing very fragile licensing and inspection database that does not meet regulatory needs. The system will accommodate new licensing and inspections, generate renewal applications and licenses, and track complaints and administrative actions for over 7,000 businesses. In addition, it will streamline processes to improve efficiency and accuracy for the public and staff. The current system has little capacity to access historic information in usable form, and reporting capabilities are severely limited. The current vendor is staffed by two employees.

Justification:

This request increases annual funding for each of the 16 Soil and Water Conservation Districts (SWCD) from \$25,000 to \$50,000. Annual funding for SWCDs was last increased in 2017. The Department relies on the SWCDs to provide critical technical assistance to farms and producers for soil and water conservation assistance; however current funding is not keeping up with the districts' operational and administrative costs.

All Other	\$50,000	\$50,000
GENERAL FUND TOTAL	<u>\$50,000</u>	<u>\$50,000</u>

Justification:

This request is to add \$50,000 in annual funding to supplement the Department's Certified Seed Program annual surveys for a PCN (Pale Cyst Nematode). This survey for the federally regulated soil borne pathogen determines the absence or presence and a negative field survey result is required for growers to ship seed to Canada. USDA funds approximately \$40,000, but the funding has not increased for several years and the program is having to subsidize this necessary work due to an increase in costs for labor, shipping samples and supplies. Additionally, the costs have increased for the required lab testing of seed potatoes post-harvest to ensure that the seed meets tolerances for various diseases.

Justification:

The Forest Health and Monitoring Division protects the forest, shade and ornamental tree resources of the State from significant insect and disease damage and provides pest management and damage prevention for homeowners, municipalities, and forest landowners; the Division also monitors the extent and condition of Maine's forest resource to provide timely, unbiased, credible, and relevant information at sufficient precision to enable timely and informed forest policy decisions. The Forest Policy and Management Division supports Maine's forest-based economy by providing technical assistance, information, and education services to forest landowners, forest products manufacturers, municipalities, and the public. The Division collects and analyzes data on forest policy issues to provide recommendations to the Governor and the Legislature and to administer programs that support informed decisions that protect the multiple values of Maine's forests.

Justification:

Central Fleet Management within DAFS centrally procures, distributes and disposes of passenger and light truck vehicles. CFM handles many aspects of vehicle services including writing vehicle specifications, ordering vehicles, providing drivers with maintenance schedules, service assistance, fueling resources, insurance protection, and accident information processing. Central Fleet is established as an internal service fund intended to recoup their costs through daily and long term rental billings to departments and agencies. CFM expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including fuel and vehicle purchase price. This recoupment process results in increased billing rates to departments and agencies.

1) The Maine Geological Survey will map, inventory, assess, and interpret Maine's geology. Continue and enhance the development of geologic (bedrock, surficial, sand & gravel aquifer, coastal marine and mineral resource) mapping and update hazards, economic resources, and digital natural resource databases. Maintain a cooperative with the US Geological Survey, including groundwater monitoring and snow surveys. Improve groundwater characterization, water resources planning and management efforts. Map landslide hazards and eroding coastal bluffs, and provide this information to assist in planning and development. 2) The Municipal Assistance Program guides local and regional land-use planning efforts by implementing Maine's Land Use Planning and Regulation Act, and by providing technical and financial assistance to local and regional planning bodies. The Program provides model ordinances and technical guidance documents, workshops and webinars, consultations, town-specific comprehensive planning data packages, land-use training for local code enforcement officers, and research on emerging issues. 3) The Maine Floodplain Management Program reduces the risk of loss to life and property from flooding through the administration and enforcement of the National Flood Insurance Program Community Assistance Program-State Support Services Element and the RISK Map programs.

Justification:

The program is governed by a board appointed by the Governor, consisting of Commissioners of the Departments of Agriculture, Conservation and Forestry, Inland Fisheries and Wildlife, and Marine Resources, along with six public members. The Board administers funds to acquire land and interests in land for conservation, water access, outdoor recreation, fish and wildlife habitat protection, farmland preservation and working water fronts. The program is funded primarily by bonds. Projects to be funded are selected via a competitive selection process. The program requires the state funds to be leveraged by matching contributions from project partners.

Justification:

The land management group manages more than 600,000 acres of Public Reserved and Non-reserved land, and certain other publicly owned lands, for multiple uses including recreation (camping, hiking, hunting fishing, motorized recreation), wildlife, ecological protection (including Ecological Reserves), and timber management. The program generates self-sustaining income by forest management and leasing activities to support these programs. Forest management also supports state and local timber economies. The program manages land under principles of multiple use to produce a sustainable yield of products and services for Maine citizens.

Justification:

Central Fleet Management within DAFS centrally procures, distributes and disposes of passenger and light truck vehicles. CFM handles many aspects of vehicle services including writing vehicle specifications, ordering vehicles, providing drivers with maintenance schedules, service assistance, fueling resources, insurance protection, and accident information processing. Central Fleet is established as an internal service fund intended to recoup their costs through daily and long

term rental billings to departments and agencies. CFM expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including fuel and vehicle purchase price. This recoupment process results in increased billing rates to departments and agencies.

Justification:

The Maine Healthy Soils Program was established to improve the health, yield, and profitability of the state's diverse agricultural soils and commodities by expanding the use of best practices among farmers and farmland owners in Maine. In doing so, the Program can also help protect native biological and microbiological diversity and increase the greenhouse gas drawdown by agricultural soils. The Program will provide information to educate producers, investigate opportunities to incentivize healthy soils best practices, provide technical, financial, and research assistance to those engaging in healthy soil activities.

Justification:

The Maine Land Use Planning Commission serves as the planning and zoning authority for the unorganized and deorganized areas of the State, which includes 10.4 million acres, consisting of 420 unorganized townships, 32 plantations, and 7 organized towns. These areas either have no local government or have chosen not to administer land use controls at the local level. The commission is funded through an appropriation from the General Fund. The commission is governed by a nine-member, independent decision-making body, with eight members nominated and appointed by each of the eight respective counties with the most acreage in the unorganized and deorganized areas and one member nominated and appointed by the Governor. The primary functions of the commission follow: designate land use districts and develop land use standards for these districts; educate the public about these standards; enforce applicable land use standards; review applications for development and issue permits and certifications for development meeting applicable standards; prepare a comprehensive land use plan for the unorganized and deorganized areas of Maine; and provide staff support to the commission.

GENERAL FUND TOTAL	<u>\$9,171</u>	<u>\$11,477</u>

Justification:

Central Fleet Management within DAFS centrally procures, distributes and disposes of passenger and light truck vehicles. CFM handles many aspects of vehicle services including writing vehicle specifications, ordering vehicles, providing drivers with maintenance schedules, service assistance, fueling resources, insurance protection, and accident information processing. Central Fleet is established as an internal service fund intended to recoup their costs through daily and long term rental billings to departments and agencies. CFM expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including fuel and vehicle purchase price. This recoupment process results in increased billing rates to departments and agencies.

Justification:

Leased Space within DAFS locates, negotiates, and holds all real property leases required by all Departments and agencies to ensure those leases are to the best economic advantage of the State. The current portfolio includes over 220 leases for more than 1.6 million square feet. Leased Space is established as an internal service fund intended to recoup their costs through billings to departments and agencies. Leased Space expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs. This recoupment process results in increased billing rates to departments and agencies.

The Working Farmland Access and Protection Program (WFAPP) provides funding to protect Maine's productive and economically significant agricultural lands. On these protected properties, WFAPP encourages agricultural practices that support soil health, carbon sequestration, and the long-term productivity of protected farmland. WFAPP also seeks to protect properties that support farming operations in areas of the state that support and anchor a viable agricultural economy, that benefit beginning farmers or underserved communities, and that provide multiple public benefits such as protection of wildlife habitat.

Justification:

MaineIT is responsible for the delivery of safe, secure, and high-performing networks and systems to State Agencies for daily performance of their missions for the citizens of Maine. IT enterprise functions benefitting all state agencies are managed through this office to ensure consistency, volume discount efficiencies, and optimum performance and throughput. MaineIT is established as an internal service fund intended to recoup their costs through billings to departments and agencies for services provided. MaineIT expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including vendor increases, supply chain costs, and network and systems modernization and upgrades. This recoupment process results in increased billing rates to departments and agencies.

Justification:

The Off-Road Vehicle Office is funded by dedicated revenue from snowmobile and ATV registration fees, as well as a small portion of the gasoline tax from snowmobiles, ATVs, and boats. The program plans, develops, and maintains thousands of miles of snowmobile/ATV trails directly or through grants-in-aid to clubs and municipalities. The program also develops and distributes information/education materials and provides technical assistance to clubs, municipalities, and landowners in managing recreational use of snowmobiles and ATVs. The grant-in-aid programs currently pay a portion of the cost of trail development and maintenance for snowmobile club projects and municipal snowmobile projects. Additionally, the Public Facility for Boats Act provided that the Director of the Bureau of Parks and Lands "acquire, construct, and maintain, within funds available, public facilities for boats in the waters of the State" and provide a standardized state navigational marking system on the waters of the state.

Justification:

The Board of Pesticides Control protects the public health and safety as well as the public interest in the soils, water, forests, wildlife, agricultural and other resources of the state by assuring the scientific and proper use of chemical pesticides. It operates four major programs that include pesticide product registration, certification and licensing of applicators and dealers, monitoring and compliance, and public education.

Justification:

Central Fleet Management within DAFS centrally procures, distributes and disposes of passenger and light truck vehicles. CFM handles many aspects of vehicle services including writing vehicle specifications, ordering vehicles, providing drivers with maintenance schedules, service assistance, fueling resources, insurance protection, and accident information processing. Central Fleet is established as an internal service fund intended to recoup their costs through daily and long term rental billings to departments and agencies. CFM expenses are higher due to negotiated and benefit changes to Personal Services as well as increases in operational costs, including fuel and vehicle purchase price. This recoupment process results in increased billing rates to departments and agencies.

Pesticides Control - Board of 0287

Initiative: Transfers and reallocates the cost of one Environmental Specialist III position, one part-time Environmental Specialist II position, and one part-time Office Associate II position from 100% Board of Pesticides Control program, Other Special Revenue Funds to 100% Bureau of Agriculture program, General Fund. Justification:

It is our mission to carry out the provisions of the Trust created by former Governor Percival P. Baxter; known to the people of Maine as Baxter State Park. The Baxter State Park Authority exists to ensure that the Park "shall forever be kept and remain in the Natural Wild State", to provide recreational opportunities to the public in accordance with trust provisions, to operate and maintain the Park for the use and enjoyment of Maine's people. According to the donor's wishes, it shall forever be retained and used as a public park, public recreational area, for the demonstration of exemplary forest management and remain as a sanctuary for beasts and birds and "Katahdin in all its glory forever shall remain the mountain of the People of Maine".

Justification:

The mission of the Wild Blueberry Commission of Maine is to "conserve and promote the prosperity and welfare of this State and of the wild blueberry industry of this State by fostering research and extension programs, by the development of promotional opportunities and other activities related to the wild blueberry industry." These dedicated revenues provided by wild blueberry growers and processors will be used to support research and extension at the University of Maine focused on enhancing Integrated Crop Management (ICM) practices (knowledge based cropping systems), food safety and health benefit research. The majority of the funds will be invested in the promotion of Wild Blueberries locally, nationally and internationally. The commission also works with the University of Maine and the Maine Department of Agriculture, Conservation and Forestry to apply for research and promotion grants. Resources are also expended on agricultural and food policy at the state and national level for the benefit of Maine's 500 wild blueberry growers and processors.

Blueberry Commission 0375

Initiative: Deallocates funds for the blueberry tax exemption of wild blueberries grown on tribal lands pursuant to Public Law 2021, chapter 681, An Act To Enhance Tribal-State Collaboration, To Revise the Tax Laws Regarding the Houlton Band of Maliseet Indians, the Passamaquoddy Tribe and the Penobscot Nation and To Authorize Casinos, Off-track Betting Facilities, Federally Recognized Indian Tribes and Certain Commercial Tracks To Conduct Sports Wagering.
