Dear Mr Speaker,

It is with much sadness that I will be resigning from the Maine House of Representatives effective at the end of the day celebrating our Nation's Independence - July 4, 2021.

I left the classroom in order to serve our State and I have been offered a wonderful and unexpected opportunity to serve students once again. It pains me that I am unable to do both simultaneously, but this opportunity takes my family and I outside of my House District.

It was a difficult decision to make, but ensuring the well-being of my family is a promise I have made over-and-over to our Lord and Savior, Jesus Christ.

It has been my distinct honor to serve the People of west and north Augusta, especially during the COVID-19 health crisis when I was put in a position to help those who needed critical and immediate assistance. There are many fine public servants in our State who care deeply about all Maine People and it has been my pleasure to serve alongside them.

Sincerely,

S/Justin Fecteau

Apportionment Plan

An Act To Reapportion the Districts of the State House of Representatives

(H.P. 1304) (L.D. 1738)

Was reported by the Committee on **Engrossed Bills** as truly and strictly engrossed.

The SPEAKER: The Chair recognizes the Representative from Ellsworth, Representative Grohoski.

Representative **GROHOSKI**: Thank you, Mr. Speaker and good afternoon, now, House Colleagues. Today, I speak on behalf of the constituents I serve in the town of Trenton. Trenton is currently in a House district with the City of Ellsworth with which it shares major commercial, cultural and transportation interests, in addition to a land border. Due to the population growth in Ellsworth and Trenton, they can no longer be together in a district. In the pending legislation, Trenton has been grouped with the towns on the Blue Hill Peninsula. These are all mainland towns but they are not contiguous with Trenton by

land. In addition to lacking a land border, they do not share a commercial center, a school district, major employers or transportation routes. The only thing that connects Trenton to the Blue Hill Peninsula is the ocean and Trenton is a town with no harbor. The Maine Constitution's requirements about reapportionment State, quote, that each representative district shall be formed of contiguous and compact territory and shall cross political subdivision lines the least number of times necessary to establish as nearly as practicable equally-populated districts, end-quote. Additionally, redistricting is governed by Title 21-A, Section 1206-A, which states in part, quote, when reapportioning districts, where possible, the legislative apportionment commission shall attempt to form functionally contiguous and compact territories. For purposes of this section, a functionally contiguous and compact territory is one that facilitates representation by minimizing impediments to travel within the district. Impediments to travel include, but are not limited to, physical features such as mountains, rivers, oceans and discontinued roads or lack of roads. The commission shall recognize that all political subdivision boundaries are not of equal importance and give weight to the interest of the local communities when making district boundary decisions, end-quote.

I understand that redistricting can be challenging along the coast, especially for our island communities. However, for mainland towns, it would appear that being connected only by ocean would not be functionally contiguous if there were ways to draw boundaries that met with the other requirements of the Constitution and Statute. In the case of Trenton, there were and I submitted one such redistricting proposal to the apportionment commission to demonstrate that was the case. Trenton would be better placed in a district with towns of Mount Desert Island. They are in the same school district and many Trenton residents work on MDI. The new transit center for Acadia is in Trenton and so is the airport. The one way to get to MDI via a car is through Trenton. They are functionally contiguous and also share interests. And, fun fact, for anyone still listening, there is a small piece of Trenton on Mount Desert Island, so, they are actually contiguous even by land. A number of my Trenton constituents, including municipal leaders, submitted public comment to the commission and contacted me with their objections. I agree with them that the legislation in front of us is not right for Trenton. I do not believe that the requirements of compactness, functional contiguity and local community interests were given their due weight in this map of our region so, I will be voting against the pending motion. Thank you.

The SPEAKER: The Chair recognizes the Representative from Portland, Representative Collings.

Representative **COLLINGS**: Good afternoon, Mr. Speaker, Ladies and Gentlemen of the House. I wanted to rise to speak my opposition to this motion. I had every intention to vote for this. Pending some changes to the district I now represent and some other districts in Portland which I think in the process, the changes were extreme to a point which I didn't think made sense for those communities or parts of the city. I did my best to work with the committee and use the process to make those changes. Some changes were made in some districts. Unfortunately, it didn't come together for the district I represent and just as a matter of conscience for my constituents, I don't think the way it was moved is in the best interests for

them. I lost about half of my district. Geographically, that's very important for the area. I can't justify any good answers to tell them and if that happens, all I can do is make assumptions and I don't want to make a decision based on assumptions. So, for those reasons, unfortunately, I just wanted to stand briefly on the record to say that I unfortunately can't stand here today and vote for this with you. Thank you.

The SPEAKER: The Chair recognizes the Representative from Bar Harbor, Representative Williams.

Representative **WILLIAMS**: Thank you, Mr. Speaker. I currently represent the towns of Bar Harbor, Mount Desert, Lamoine and now in the new redistricting the Cranberry Isles. I am responding to Representative Grohoski's comments and I'll be very brief. I have represented Lamoine along with the two island towns in this session. The town of Lamoine is not physically connected to MDI but it is by water. What we share, and I encourage us to keep Lamoine in my district, what we share, Bar Harbor and Lamoine, is we are the two towns on the west side of Frenchman Bay. The east side of Frenchman Bay is represented by Representative Faulkingham and I represent the east side. So, I think it would be extremely disruptive both to our relationship with Lamoine to remove them from my district and they inevitably then would be also transferred to the district on the other side of the bay. So, I encourage everyone to vote for this measure. Thank you.

The SPEAKER: The Chair recognizes the Representative from Oxford, Representative Dillingham.

Representative **DILLINGHAM**: Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I actually rise in support of the motion before us and would like to actually thank the members of the commission for the hard work that they put in. Something that traditionally has months to happen happened in mere weeks. And it's a lot of data and information to run through and for these folks to put the time in that they did and come out with a product that was unanimously voted out, I am very proud and thankful of the work that they did and I look forward to supporting this.

In accordance with the provisions of Article IV, Part First, Section 3, Paragraph 1 of the Constitution, a two-thirds vote of the members present and voting of the House being necessary, a total was taken. 119 voted in favor of the same and 10 against, and accordingly the Bill was **PASSED TO BE ENACTED**, signed by the Speaker and sent to the Senate.

The SPEAKER: The Chair recognizes the Representative from Paris, Representative Andrews, who wishes to address the House on the record.

Representative **ANDREWS**: Thank you, Mr. Speaker. I had submitted a resolution for today's session. Unfortunately, it didn't make the cut for the calendar, so, on behalf of the people that support it, I'd like to read it into the record now. Joint resolution opposing the Biden administration's extralegal rule requiring private sector businesses to mandate vaccination for their employees. Whereas the Tenth Amendment of the Bill of Rights states that the powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people. Whereas the President and his administration do not have the authority to dictate vaccination policies to private businesses in the United States of America and whereas the line between public and private sectors must be recognized, respected and preserved in American society with the required checks and balances and Whereas the delegation of extralegal powers has been granted to unelected officials of the Biden administration and not fully debated by the coequal legislative branch and Whereas the lives of Maine citizens, local jobs, businesses and activities will be greatly, fundamentally and forever impacted, now, therefore be it resolved that we, the Members of the 130th Legislature now assembled in the apportionment special session, on behalf of the people we represent and pursuant to the authority granted in the Maine State Constitution strongly oppose the extralegal

overreach of President Biden and his administration to dictate vaccination policy to private businesses, impacting over 170,000 private employees in Maine and over 80 million private employees across the nation. And be it further resolved we the Members of the 130th Legislature recognize that government's legitimacy may only be derived from the consent of the government. And may it be further resolved we further recognize that as elected representatives it our responsibility and solemn oath to strive for the maximum absence of government coercion in all matters. Thank you, Mr. Speaker.

The SPEAKER: The Chair recognizes the Representative from Auburn, Representative Libby, who wishes to address the House on the record.

Representative **LIBBY**: Thank you, Mr. Speaker. I would like to recognize and show appreciation for the healthcare workers that are present in the balcony and that were present in the rotunda earlier today that have worked so hard on behalf of Maine people for the duration of the COVID-19 pandemic.
