9 shall contract with a firm to offer individual retirement accounts to participants.

10 The annual contributions, if any, for a given calendar year must be deposited into the  
11 program trust fund before the following July 1st.

12 The portion of the annual contributions credited to a program account of a participant  
13 who has attained the entitlement age as described in subsection 14 and has been paid the

34 allocated equally to the state subaccounts of the participants who earned one year  
35 of service credit during that calendar year.

36 (2) Forfeitures from a participant's state subaccount must be added to and  
37 allocated as state contributions as designated by the State in the calendar year in  
38 which the forfeitures are determined to occur pursuant to subsection 13;

39 B. A municipal subaccount, which is an account of a participant derived from  
40 contributions from a specific municipality to the program. A participant's municipal  
41 subaccount must reflect the respective contributions from that municipality along  
42 with forfeitures, investment income or loss as well as administrative and investment

1 expenses allocated to the subaccount and distributions paid from the subaccount. A

6 who are eligible volunteers of that municipality and who earned one year of  
7 service credit during that calendar year.

8 (2) Forfeitures from a participant's municipal subaccount must be added to and  
9 allocated as municipal contributions as designated by the municipality in the  
10 calendar year in which the forfeitures are determined to occur pursuant to

13 derived from contributions from a specific municipal fire department or a fire

15 program. A participant's municipal fire department subaccount must reflect the  
16 respective contributions from that municipal fire department or fire company or  
17 volunteer organization associated with a municipal fire department along with  
18 forfeitures, investment income or loss as well as administrative and investment  
19 expenses allocated to the subaccount and distributions paid from the subaccount. A  
20 participant's municipal fire department subaccount is subject to the vesting schedule  
21 set forth in subsection 12.

22 (1) For a given calendar year, the total contribution from a specific municipal  
23 fire department or a fire company or volunteer organization associated with a  
24 municipal fire department, if any, must be allocated equally to the municipal fire  
25 department subaccounts of the participants who are eligible volunteers of that  
26 municipal fire department or fire company or volunteer organization associated  
27 with a municipal fire department and who earned one year of service credit  
28 during that calendar year.

29 (2) Forfeitures from a participant's municipal fire department subaccount must  
30 be added to and allocated as municipal fire department contributions as  
31 designated by the municipal fire department or fire company or volunteer  
32 organization associated with a municipal fire department in the calendar year in  
33 which the forfeitures are determined to occur pursuant to subsection 13;

34 D. A Federal Government subaccount, which is an account of a participant reflecting  
35 applicable Federal Government contributions, forfeitures, investment income or loss  
36 as well as administrative and investment expenses allocated to the subaccount and  
37 distributions from the subaccount. Unless otherwise specified in federal law, a  
38 participant's Federal Government subaccount is subject to the vesting schedule set  
39 forth in subsection 12.

40 (1) Unless otherwise specified in federal law, for a given calendar year, the total  
41 contribution from the Federal Government, if any, must be allocated equally to  
42 the Federal Government subaccounts of the participants who earned one year of  
43 service credit during that calendar year.

1           (2) Unless otherwise specified in federal law, forfeitures from a participant's  
2           Federal Government subaccount must be added to and allocated as Federal  
3           Government contributions as designated by the Federal Government in the  
4           calendar year in which the forfeitures are determined to occur pursuant to  
5           subsection 13; and

6           E. A participant contribution subaccount. If the United States Internal Revenue  
7           Code is amended and any required rules and regulations are issued by the United  
8           States Internal Revenue Service to allow defined contribution length of service award  
9           programs to be treated as deferred compensation plans under the United States  
10           Internal Revenue Code, Section 457, a participant may elect to make participant  
11           contributions to the program. A participant contribution subaccount must reflect the  
12           respective contributions from a participant along with investment income or loss as  
13           well as administrative and investment expenses allocated to the subaccount and  
14           distributions paid from the subaccount. A participant contribution subaccount must  
15           be 100% vested at all times.

16           **12. Vesting schedule for a participant's accrued service award.** A participant's  
17           accrued service award becomes vested as set out in this subsection.

18           A. If the participant has less than 5 years of service credit, the vested percentage is  
19           0%.

20           B. If the participant has 5 or more years of service credit, the vested percentage is  
21           100%.

22           In determining an individual participant's years of service credit for the purpose of  
23           vesting, all years of service credit earned as a participant in the program must be counted.  
24           Failure to submit the annual eligible volunteer listing to the board under subsection 9 by  
25           the required date for any calendar year does not result in the forfeiture of the certified  
26           service credit reported to the board for an eligible volunteer.

27           All calendar years, up to 5 years, ending before January 1, 2016 during which the  
28           participant was an eligible volunteer for the entire calendar year count for vesting service  
29           credit.

30           **13. Forfeiture of a participant's accrued service award.** The nonvested portion of  
31           a participant's accrued service award is permanently forfeited effective as of December  
32           31st of the calendar year during which the participant has not been an eligible volunteer  
33           for 36 consecutive months. Service credit earned by a participant is never forfeited.

37           B. The age of a participant as of the end of the calendar year after earning 20 years  
38           of service credit.

39           **15. Payment to participant of accrued service award.** The following provisions  
40           govern the payment to a participant of an accrued service award.

1           A. Upon the attainment of the entitlement age as described in subsection 14, a  
2           participant must be paid the vested portion of the participant's accrued service award.  
3           A participant who attains the entitlement age while an eligible volunteer and before  
4           attaining a 100% vested status must be paid the participant's accrued service award as  
5           of December 31st of the calendar year during which the participant achieved a 100%  
6           vested status. A participant who attains the entitlement age before 65 years of age  
7           may on or before attaining the entitlement age file a written election with the board to  
8           defer payment of the participant's accrued service award until attainment of 65 years  
9           of age.

10           B. As of the last day of the first calendar year during which a participant has no  
11           longer been an eligible volunteer for at least 36 consecutive months, the vested  
12           portion of the participant's accrued service award must be paid to the participant.

16           or any other entity approved by the board must be paid that participant's accrued  
17           service award as soon as administratively feasible after all documentation required by  
18           the board to verify and determine total and permanent disablement is submitted to the  
19           board and the disability payment is awarded by the board.

20           D. Should a participant die before attaining the entitlement age, the participant's  
21           designated beneficiary or estate if no acceptable beneficiary designation form has  
22           been filed with the board by the participant must upon application to the board be  
23           paid the participant's accrued service award as soon as administratively feasible after  
24           all required documentation is submitted to the board.

25           E. The portion of the annual contribution credited to the program account of a post-  
26           entitlement age participant must be immediately paid to the participant if the  
27           participant has achieved a 100% vested status in the program. If the post-entitlement  
28           age participant has not achieved a 100% vested status in the program, that  
29           participant's accrued service award must be paid to the participant as soon as  
30           administratively feasible after December 31st of the calendar year during which the  
31           participant achieved a 100% vested status.

32           **16. Investment of program funds.** The board shall establish a program trust fund  
33           within which the funds paid into the program must be deposited. A participant shall  
34           select investments for the amounts credited to the participant's program account from a  
35           menu of investment options. Distributions of accrued service awards must be made from  
36           the program trust fund in accordance with the program provisions. The program trust  
37           fund must be established and maintained in accordance with applicable sections of the  
38           United States Internal Revenue Code. Subject to review and approval by the Treasurer of  
39           State, the program trust fund investment options made available to participants must be  
40           selected by the board.

41           **17. Program audits.** At the discretion of the State, either a state agency or a firm  
42           retained by the State shall audit the program at least once every 5 years.

1 **18. Notice of changes to laws governing the program.** Within 180 days after the  
2 effective date of legislation that changes the laws governing the program, a written notice  
3 and explanation of these changes must be distributed by the board to all persons who  
4 participate or are eligible to participate in the program. Copies of this written notice and  
5 explanation must be available upon request to the board to all other persons.

6 **19. Program termination.** Within 360 days after the effective date of legislation  
7 terminating the program, each program participant must be paid the participant's entire  
8 accrued service award to the date of payment in a single lump sum. Beneficiaries of  
9 deceased participants must be paid any amount owed to them under the program in the  
10 same manner within the same 360-day period.

11 **20. Program trust fund governed by certain provisions.** Until the United States  
12 Internal Revenue Code is amended to treat defined contribution length of service award  
13 programs as deferred compensation plans under the United States Internal Revenue Code,  
14 Section 457, the program trust fund must be governed by all required provisions to ensure  
15 that a participating eligible volunteer or the eligible volunteer's beneficiary is not subject  
16 to federal income taxation on an accrued service award until actual receipt of payment by  
17 the participant or the beneficiary. After the United States Internal Revenue Code is so  
18 amended, the State and the board shall take all required actions to ensure the program  
19 complies with the United States Internal Revenue Code, Section 457 and the related  
20 United States Internal Revenue Service regulations.

21 **21. Rules.** The board shall adopt rules, which are routine technical rules pursuant to  
22 Title 5, chapter 375, subchapter 2-A, pertaining to the administration of the program.

23 **Sec. 2. 5 MRSA §12004-G, sub-§30-E** is enacted to read:

18 **SUMMARY**

19 This bill establishes the framework for a statewide pension-type program under  
20 which "bona fide volunteers" as defined in the United States Internal Revenue Code are  
21 paid length of service awards for performing qualified services. "Qualified services" is  
22 defined under the United States Internal Revenue Code, Section 457(e)(11) to mean "fire  
23 fighting and prevention services, emergency medical services, and ambulance services."  
24 Under the program, volunteers have a program account that would be credited with an  
25 annual contribution deposited no later than the following July 1st for each year during  
26 which the volunteer participated in a minimum required level of volunteer activities set  
27 forth by the Maine Length of Service Award Program Board of Trustees established in  
28 this bill. Upon the attainment of 65 years of age or after having earned 20 years of  
29 service credit before 65 years of age, a volunteer who had attained a vested status in the  
30 program by having earned 5 years of service credit would be paid the contributions  
31 credited to that volunteer's program account plus the net investment income earned on  
32 those contributions. The vested portion of the program account award of a participating  
33 volunteer must be paid before the volunteer reaches 65 years of age if the volunteer
