SUMMARY

This bill modifies the initial licensure qualifications for prescription drug manufacturers and wholesalers by allowing an applicant to apply for licensure before the applicant has obtained a registration number from the appropriate federal agencies but requires that a manufacturer or wholesaler licensed in this State file the applicable registration numbers with the Maine Board of Pharmacy once the registration numbers are obtained by the manufacturer or wholesaler. The bill also provides that the board may deny a license, refuse to renew a license or impose disciplinary sanctions if the manufacturer or wholesaler fails to file the applicable registration numbers with the board once the registration numbers are obtained.
