**SUMMARY**

This bill extends the Maine Seed Capital Tax Credit Program, which is approaching the statutory cap on credits that can be authorized, and makes a number of improvements and clarifications. The bill makes the amount of the tax credit the same for individual investors and venture capital funds, clarifies that producers of value-added natural resource products are eligible, removes the ambiguous eligibility for businesses that "bring capital into the State" and specifies that eligible businesses must certify that the investment is necessary to allow the business to create or retain jobs in the State. The bill increases the maximum annual sales limit of \$3,000,000, which has been in effect since 1997, to \$5,000,000 for investments made in 2014 or after. The bill authorizes additional tax credits of \$2,000,000 for investments made between June 1, 2013 and December 31, 2013, \$4,000,000 for investments made in calendar year 2014 and \$5,000,000 each year for investments made in each subsequent year. An investor in a venture capital fund requesting a refundable tax credit may not file for a refund until the calendar year after the calendar year in which the investment is made.
