26 SUMMARY

27 This resolve replaces the bill, which is a concept draft, and establishes the
28 Commission To Study Services Available on the Long-term Care Continuum. The
29 commission is required to examine issues on the long-term care continuum from
30 homemaker services and home-based care to residential and nursing facility care to
31 determine whether these services are being provided efficiently and whether the provision
32 of services allows for individuals to move through the long-term care continuum from
33 one program to another as needs change; review recent recommendations, legislation and
34 policy initiatives; determine future needs in the long-term care continuum; examine direct
35 care workforce issues; and develop strategies to support family members providing free

1 care. The commission must submit its report, including suggested legislation, to the
2 Joint Standing Committee on Health and Human Services no later than December 2,
3 2015. The committee may report out legislation to the Second Regular Session of the
