30 This amendment is the majority report of the committee. It makes the following
31 changes to the bill.

32 1. It makes the addresses on copies of residential private drinking water well test
33 results that are forwarded from laboratories to the Department of Health and Human
34 Services confidential.

35 2. It removes the requirement for water testing when residential private drinking
36 water wells are constructed. Instead the Maine Water Well Commission is required to

1 or deepened to inform the owners of the importance of testing for arsenic and other
2 contaminants.

3 3. It funds the Private Well Safe Drinking Water Fund from fees on the testing of
4 residential private drinking water wells conducted by the Health and Environmental
5 Testing Laboratory.

6 4. It removes the fund for providing low-income persons with affordable water
7 treatment held within the Maine State Housing Authority and funded by fees on the
8 installation of water treatment equipment.

9 5. It removes the requirement for property disclosure statements to include the
10 results of water tests conducted in the last 3 years.
