Resolve, Directing the Public Utilities Commission to Investigate Time-of-use Rates

Sec. 1. Time-of-use rates; report. Resolved: That the Public Utilities Commission shall investigate the feasibility of requiring:

1. Standard-offer service to include a time-of-use rate option, including whether the commission recommends the use of a pilot program to assess this option; and
2. All investor-owned transmission and distribution utilities to offer a time-of-use rate for the delivery of electricity for all customer classes that would complement a time-of-use supply rate.

No later than January 15, 2024, the commission shall submit a report to the Joint Standing Committee on Energy, Utilities and Technology that includes a summary of the commission's investigation along with any findings and recommendations related to the report. The committee may report out a bill to the Second Regular Session of the 131st Legislature.
