## SUMMARY

26 This bill provides for the establishment of a new stewardship program in the State for discarded mattresses. Under the bill, a producer of mattresses, or an organization 27 comprising one or more producers of mattresses, submits a plan for the establishment of a 28 29 mattress stewardship program to the Commissioner of Environmental Protection for 30 approval. Once approved, a program operates to provide convenient, free statewide 31 collection opportunities for discarded mattresses, and discarded mattresses collected 32 through the program are recycled or otherwise responsibly managed. A program is 33 funded through the imposition of a mattress stewardship assessment, subject to review 34 and approval by the commissioner, which is added to the purchase price of all mattresses 35 sold in the State.
