

Inmate Benefit Fund

Maine State Prison

My name is Olland Reese, I have currently served 19½ years of a 47yr sentence. I was recently made aware of your Proposed Bill; An Act To Prohibit Excessive Telephone and Commissary Charges In Maine Jails and Prisons; (L.D. 1175).

I must admit that after reading the bill I was left feeling optimistic, yet very concerned. I agree whole heartedly that some changes need to be made with regard to County Jails in the State of Maine however, these changes are not needed at the Maine State Prison, specifically, any changes that would prevent or restrict the Prison from maintaining the Inmate Benefit Fund.

On the surface, L.D. 1175 appears to be focused on the mental health and physical well-being of incarcerated individuals, maintained through access to affordable Commissary Items and affordable Phone Rates, yet the Inmate Benefit Fund allows the Prison to maintain that same thing through Constructive Pacifiers and Facilitating Rehabilitation. When I arrived at the Maine State Prison Phone Rates were \$0.30 per minute, currently our Phone Rates are a very affordable \$0.09 per minute, with no connection fee and everyone gets one free 10-minute call per week. With the Prison's Commissary prices comparable to Convenience Store Prices and the \$0.09 per minute, I have always found our prices here at the Prison to be affordable. If the Prison has been able to keep affordable rates all these years, while maintaining an Inmate Benefit Fund that contributes to the Residents mental health and well-being, aides in rehabilitation, provides a little relief to the Maine Taxpayer and is supported by the overwhelming majority of the Residents incarcerated

here, maybe This Body should use the Maine State Prison as a Model for the Facilities that actually have the problems you are trying to solve.

The existence of the Inmate Benefit Fund has been a crucial part in maintaining the mental health and physical well-being of the incarcerated individuals at the Maine State Prison, while it has also been a pillar in the rehabilitation of Maine's incarcerated individuals within the Prison. Simply put, the key Expenditures of the Inmate Benefit Fund are Payroll for Resident Program Facilitators and purchasing Constructive Pacifiers to provide stress relief, such as Equipment for the Organized Sports Program, Fitness Equipment for both the Pods and the Recreation Building, the various board and card games which are distributed to the Pods, equipment for the Music Program, Furniture (various size chairs) and Microwaves for the Pods, etc.

The Resident Program Facilitators are part of the foundation to both the Mental Health and Rehabilitation aspects of the Maine State Prison. The Residents Facilitators are primarily Long-Term Residents and all Resident Facilitators are paid monthly, they have shown a dedication to change and have put forth the effort to achieve the necessary qualifications/certifications to Facilitate their chosen Program. To name a few of the Resident Facilitator positions: There are Residents who Facilitate Rehabilitation Programs such as Victim Impact, Thinking For A Change, Houses of Healing, The Challenge Program, Psychology of Incarceration, etc. There are several Residents who Facilitate Art classes as well as Tutoring Residents who are trying to finish and/or further their Education. There are also Residents who Facilitate Yoga classes, these Residents have all been officially certified to conduct a Yoga Practice.

I am a Resident Facilitator as well. I organize and assist in Facilitating the Music Program with the help of two other Residents. For Music we run 16-week classes, we have approximately 40-50 Residents participating

in each 16-week segment and we offer lessons in Drums, Guitar, Bass, Keyboard, Music Theory, Music Composition, Writing Lyrics and Vocals. In addition to the 16-week classes, we also offer a 10-week Mixing & Mastering Class Learning to use FL Studio Digital Audio Workshop Software. We normally maintain a waiting list of approximately 60-70 additional Residents. I also organize and officiate the largest pacifier and aid to a balanced mental health and well-being and that is the Prison's Organized Sports Program. We offer Softball, Basketball, Soccer, Indoor Volleyball and hand-ball. Thanks to the Inmate Benefit Fund we will soon be adding Outdoor Beach Volleyball, PickleBall and Spikeball. Each Sport consists of a Regular Season, Play-Off and Championship Series. This structured setting is a HUGE outlet for Residents and it is something they all look forward to in a place where there really isn't usually a lot to look forward to.

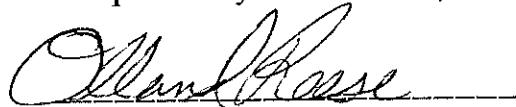

With regard to Fitness, it's been a struggle with covid however, we also try and hold quarterly Fitness Competitions which range from Cross-Fit to Power-Lifting. The next scheduled Competition is a Push-Pull (Bench, Deadlift) Competition against Staff. We started this interaction between Residents and Staff a couple years ago with Softball and saw great improvements in Resident/Staff relations and interaction. As a result of that positive impact, we are looking to expand that interaction to include Fitness Competitions and possibly Basketball and/or other Organized Sports.

I can't stress enough that NONE of this would be possible without the existence of the Inmate Benefit Fund. While I wrote this as someone who is incarcerated at the Maine State Prison, I also write it as someone who has contributed thousands of dollars to the Inmate Benefit Fund over the years, be it through the use of phones or purchase of allowable items through commissary and property, I am both thankful for and in many ways benefit from the Inmate Benefit Fund. In addition, I have attached

the signatures of well over half the Prison Population who are also thankful for, benefit from and strongly support the Inmate Benefit Fund. If not for current restrictions due to Covid-19 I am confident that I would have had over 90% of the Prison Population's signatures and acknowledgement. The reason I say that with confidence is because the long term Residents all know where the money from the Inmate Benefit Fund goes and what the money is, and is not, spent on. Money from the Inmate Benefit Fund can only be spent on items that are for the Residents and/or that the Residents use.

I wish to thank anyone who took the time to read and consider this and pray you see the importance of preserving this Fund as you make the much needed changes to the County Jails.

Respectfully Submitted,

A handwritten signature in cursive script, appearing to read "Olland Reese", written over a horizontal line.

Olland Reese #23778

Maine State Prison
