

Annique Milite  
Freeport  
LD 2003

To the Labor and Housing Committee,

My name is Annique Milite, resident of Freeport. I write to strongly urge that LD 2003 ought NOT to pass.

Lawmakers ought to address root causes such as inflation, taxation, rising energy costs, etc, that make home ownership ever out of reach, rather than eliminating single-home residency altogether (as desired by certain worldwide interests).

Furthermore, please continue to leave such things to the localities who have managed thus far according to the facts on their own particular grounds. Do not impose sweeping changes from on high, not least according to governor-appointed board members who may not have such local connections nor considerations.

Thank you for your time,
