

Tory Dietel Hopps
Cumberland
LD 2086

Dear Committee Members - I am taking the time to write in support of this bill today because the time has come to put our fellow citizens before the gun industry. I have friends who were first responders to the Lewiston tragedy, they and the families and friends of those victims are forever scared by this trauma and tragedy. We should not wait for another gun violence tragedy in our Great State of Maine to make moves to reduce in ANY way the potential for harm to our fellow community members. Thank you for your public service.
