

§2601-A. Scope

This chapter establishes a system designed to help ensure public health; to allow the State, municipalities and public water systems to identify significant public water supplies and strive for a higher degree of protection around source water areas or areas that are used as public drinking water supplies; to allow the State, municipalities and water systems to pursue watershed or wellhead protection activities around significant public water supplies; and to improve testing for and treatment of contaminants or properties in residential private drinking water wells. [PL 2017, c. 230, §1 (AMD).]

SECTION HISTORY

PL 1999, c. 761, §1 (NEW). PL 2017, c. 230, §1 (AMD).

The State of Maine claims a copyright in its codified statutes. If you intend to republish this material, we require that you include the following disclaimer in your publication:

All copyrights and other rights to statutory text are reserved by the State of Maine. The text included in this publication reflects changes made through the First Regular and First Special Session of the 131st Maine Legislature and is current through November 1, 2023. The text is subject to change without notice. It is a version that has not been officially certified by the Secretary of State. Refer to the Maine Revised Statutes Annotated and supplements for certified text.

The Office of the Revisor of Statutes also requests that you send us one copy of any statutory publication you may produce. Our goal is not to restrict publishing activity, but to keep track of who is publishing what, to identify any needless duplication and to preserve the State's copyright rights.

PLEASE NOTE: The Revisor's Office cannot perform research for or provide legal advice or interpretation of Maine law to the public. If you need legal assistance, please contact a qualified attorney.
