All factory-installed brake lights or equivalent replacements on a motor vehicle, tiny home, trailer or semitrailer must be present and operating properly and must emit a steady red light when a slight pressure is placed on the brake pedal, and the light emitted must be visible for a distance of at least 100 feet behind the vehicle. For purposes of this section, "steady red light" means a red light that is either immediately constant and not pulsating or that pulsates for a short period and then becomes constant.

3. Exception for farm tractors. This section does not apply to unregistered farm tractors.
