

§488. Applicability

This article does not apply to any development in existence or in possession of applicable state or local licenses to operate or under construction on January 1, 1970, or to any development the construction and operation of which has been specifically authorized by the Legislature prior to May 9, 1970, or to public service corporation transmission lines, except transmission lines carrying 100 kilovolts or more, nor does it apply to the renewal or revision of leases of parcels of land upon which a structure or structures have been located as of March 15, 1972, nor to the rebuilding or reconstruction of natural gas pipelines or transmission lines within the same right-of-way. For purposes of this paragraph, development that reuses a building and associated facilities in existence on January 1, 1970 is exempt from review under this article. When determining if development meets the definition of "development of state or regional significance that may substantially affect the environment" and therefore is subject to review under this article, the department may not consider development in existence on January 1, 1970 that is exempt from review pursuant to this paragraph. When reviewing a proposal for development of state or regional significance that may substantially affect the environment under this article, the department may not consider in the review any development in existence on January 1, 1970 that is exempt from review pursuant to this paragraph. (2) At least 50% of the developable land in the parcel is preserved in perpetuity through conservation easements pursuant to Title 33, chapter 7, subchapter VIII-A, in common areas no smaller than 10 acres in size and of dimensions that accommodate within each common area boundary a rectangle measuring 250 feet by 500 feet;

(3) The conservation easements preserve the land in an essentially undeveloped natural state including the preservation of farmland having a history of agricultural use and the preservation of forest land for harvesting by uneven-aged selection methods designed to retain the natural character of the area, except that other methods of harvesting are permissible following a natural disaster;

(4) The conservation easements grant a 3rd-party right of enforcement, as defined in Title 33, section 476, to the department. The conservation easements granting a 3rd-party right of enforcement must be submitted to and accepted by the commissioner;

(5) All significant wildlife habitat that is mapped or that qualifies for mapping under section 480-B, subsection 10 is included in the preserved land area under subparagraph (3);

(6) No clearing, grading, filling or other development activity occurs on sustained slopes in excess of 30%;

(7) If the developable land in the parcel not subject to the requirements of subparagraphs (3) and (5) is located wholly or in part in the watershed of any lake or pond classified GPA under section 465-A, long-term measures to control phosphorus transport are taken in accordance with a phosphorus control plan that is consistent with standards for phosphorus control adopted by the board;

(8) Soil erosion and sedimentation during development of the subdivision are controlled in accordance with a plan approved by the municipality in which the subdivision is located or by the soil and water conservation district for the county in which the subdivision is located;

(9) The nonpreserved, developable land in the parcel is not located wholly or partly within the shoreland zone of a lake or pond classified GPA under section 465-A; and

(10) At the time all necessary conservation easements are filed with the department and at least 30 days prior to the commencement of clearing and construction activity, the person creating the subdivision notifies the commissioner in writing on a form supplied by the commissioner that the exemption afforded by this paragraph is being used. The person creating the subdivision shall file with that form a set of site plans, including the plans required under subparagraphs (7) and (8), and other evidence sufficient to demonstrate that the requirements of this paragraph have been met. The commissioner shall forward a copy of the form to the municipality in which the subdivision is located.

For purposes of this paragraph, "developable land in the parcel" means all contiguous land in the same ownership except for coastal wetlands, freshwater wetlands, rivers, streams and brooks as defined in section 480-B and except for any surface water classified GPA under section 465-A. New construction at a licensed manufacturing facility is exempt from review under this article provided that the additional disturbed area not to be revegetated does not exceed 30,000 square feet ground area in any calendar year and does not exceed 60,000 square feet ground area in total. When review under this article is required at a licensed manufacturing facility, the applicant shall provide plans for the new development, as well as for those activities that have been undertaken pursuant to this subsection. The permittee shall annually notify the department of new construction conducted during the previous 12 months pursuant to this exemption. The notice must identify the type, location and ground area of the new construction.

[PL 2007, c. 292, §28 (AMD).]

14. Developments within designated growth areas. The following provisions apply to developments within a designated growth area.

A. A development is exempt from review under flood plain, noise and infrastructure standards under section 484 if that development is located entirely within:

(1) A municipality that has adopted a local growth management program that has been certified under Title 30-A, section 4347-A; and

(2) An area designated in that municipality's local growth management program as a growth area.

An applicant claiming an exemption under this paragraph shall include with the application a statement from the Department of Agriculture, Conservation and Forestry affirming that the location of the proposed development meets the provisions of subparagraphs (1) and (2).

An applicant claiming an exemption under this paragraph shall publish a notice of that application in a newspaper of general circulation in the region that includes the municipality in which the development is proposed to occur. That notice must include a statement indicating the standard or standards for which the applicant is claiming an exemption. [PL 2011, c. 655, Pt. JJ, §32 (AMD); PL 2011, c. 655, Pt. JJ, §41 (AFF); PL 2011, c. 657, Pt. W, §5 (REV).]

B. The commissioner may require application of the noise, flood plain or infrastructure standards to a proposed development if the commissioner determines, after receipt of a petition under subparagraph (1) or on the commissioner's own initiative under subparagraph (2), that a reasonable likelihood exists that the development will have a significant and unreasonable impact on flood plains, infrastructure or noise beyond the boundaries of the municipality within which the development is to be located.

(1) Within 15 working days after the publication of the notice required under paragraph A, municipal officers or residents of the municipality in which the development is proposed to occur or municipal officers or residents of an abutting municipality may petition the commissioner to apply one or more of the standards for which an exemption is claimed under this subsection. 15. Exemption for former military bases. Development on a military base at the time ownership of the military base is acquired by a state or local development authority is exempt from review under this article. Subsequent transfer of ownership or lease of a former military base or any portion of a former military base by a state or local development authority to another entity does not affect the exemption granted under this subsection. Development proposed or occurring on a former military base after ownership of the military base is acquired by a state or local development authority is subject to review under this article, except to the extent that the development reuses a building and associated facilities in existence on September 29, 1995.

For purposes of this subsection, "military base" means all property under the ownership or control of a federal military authority prior to the acquisition of ownership by a state or local development authority, the ownership of which is subsequently acquired by a state or local development authority. 17. Structure area within residential lots. Buildings, roads, paved areas or areas to be stripped or graded and not revegetated that are located within lots used solely for single-family residential housing are not counted toward the 3-acre threshold described in section 482, subsection 6, paragraph B for purposes of determining jurisdiction. A road associated only with such lots is also not counted toward the 3-acre threshold. For purposes of this subsection, "single-family residential housing" does not include multi-unit housing such as condominiums and apartment buildings.

[PL 1997, c. 393, Pt. A, §45 (AMD).]

A. A roundwood or lumber storage yard and any road associated solely with the yard, constructed on or after the effective date of this subsection, is exempt from review under this article provided it is constructed and operated in accordance with the erosion and sedimentation control standards and storm water management standards contained in board rules. The person conducting these activities shall file a notice of intent to comply with the department prior to clearing and construction. [PL 1995, c. 493, §7 (NEW).]

15 or more lots for single-family, detached, residential housing, common areas or open space with an aggregate area of from 30 acres up to and including 100 acres is exempt from review under this article if it is located wholly within a municipality or municipalities meeting the criteria in paragraphs A to D as determined by the department and it is located wholly within a designated growth area as identified in a comprehensive plan adopted pursuant to Title 30-A, chapter 187, subchapter 2. The planning board of the municipality in which the development is located or an adjacent municipality may petition the commissioner to review such a structure or subdivision if it has regional environmental impacts. This petition must be filed within 20 days of the receipt of the application by the municipality. State jurisdiction must be exerted, if at all, within 30 days of receipt of the completed project application by the commissioner from the municipality or within 30 days of receipt of any modification to that application from the municipality. Review by the department is limited to the identified regional environmental impacts. The criteria are as follows:

A. A municipal planning board or reviewing authority is established and the municipality has adequate resources to administer and enforce the provisions of its ordinances. In determining whether this criterion is met, the commissioner may consider any specific and adequate technical assistance that is provided by a regional council; [PL 1995, c. 704, Pt. A, §20 (NEW); PL 1995, c. 704, Pt. C, §2 (AFF).]

B. The municipality has adopted a site plan review ordinance. In determining the adequacy of the ordinance, the commissioner may consider model site plan review ordinances commonly used by municipalities in this State that address the issues reviewed under applicable provisions of this article prior to July 1, 1997; [PL 1997, c. 485, §1 (AMD).]

C. The municipality has adopted subdivision regulations. In determining the adequacy of these regulations, the commissioner may consider model subdivision regulations commonly used by municipalities in this State; and [PL 1997, c. 485, §1 (AMD).]

D. The former State Planning Office or the Department of Agriculture, Conservation and Forestry has determined that the municipality has a comprehensive land use plan and land use ordinances or zoning ordinances that are consistent with Title 30-A, chapter 187 in providing for the protection of wildlife habitat, fisheries, unusual natural areas and archaeological and historic sites. [PL 2011, c. 655, Pt. FF, §13 (AMD); PL 2011, c. 655, Pt. FF, §16 (AFF); PL 2011, c. 657, Pt. W, §5 (REV).]

The department, in consultation with the Department of Agriculture, Conservation and Forestry, shall publish a list of those municipalities determined to have capacity pursuant to this subsection. This list need not be established by rule and must be published by January 1st of each year. The list must specify whether a municipality has capacity to review structures or subdivisions of lots for single-family, detached, residential housing, common areas or open space or both types of development. The department may recognize joint arrangements among municipalities and regional organizations in determining whether the requirements of this subsection are met. The department may review municipalities that are determined to have capacity pursuant to this subsection for compliance with the criteria in paragraphs A to D, and if the department determines that a municipality does not meet the criteria, the department may modify or remove the determination of capacity.

A modification to a development that was reviewed by a municipality and exempted pursuant to this subsection or was reviewed by the department prior to a determination that a municipality has capacity pursuant to this subsection is exempt as long as the modification will not cause the total area of the development to exceed the maximum acreage specified in this subsection for that type of development or, based upon information submitted by the municipality concerning the development and modification, the department determines that the modification may be adequately reviewed by the municipality.
[PL 2015, c. 28, §1 (AMD).]

For the purposes of this subsection, "accessory uses and facilities" means uses and facilities associated with the processing of material pursuant to article 7 or 8-A such as screening and the crushing, loading and manufacture of ready-mix concrete and bituminous concrete and associated products and weight scales, scale shacks and maintenance garages. This subsection does not apply to a development constructed during or after reclamation.

[PL 2007, c. 616, §2 (NEW).]
