

**§2329. Equitable health care for substance use disorder treatment**

**1. Purpose.** The Legislature recognizes that substance use disorder constitutes a major health problem in the State and in the Nation. The Legislature further recognizes that substance use disorder is a disease that can be effectively treated. As such, substance use disorder warrants the same attention from the health care industry as other serious diseases and illnesses. The Legislature further recognizes that health care contracts, at times, fail to provide adequate benefits for the treatment of substance use disorder, which results in more costly health care for treatment of complications caused by the lack of early intervention and other treatment services for persons suffering from substance use disorder. This situation causes a higher health care, social, law enforcement and economic cost to the citizens of this State than is necessary, including the need for the State to provide treatment to some subscribers at public expense. To assist the many citizens of this State who suffer from this illness in a more cost-effective way, the Legislature declares that certain health care coverage providing benefits for the treatment of the illness of substance use disorder must be included in all group health care contracts. [PL 2017, c. 407, Pt. A, §94 (AMD).]

[PL 2017, c. 407, Pt. A, §94 (AMD).]

C. The superintendent shall compile this data for all nonprofit hospital or medical service organizations in an annual report.

For purposes of this section, all contracts are deemed to be renewed no later than the next yearly anniversary of the contract date.
